Comprehensive Career Guidance System

Dear Parents

With a focus on an innovative, student-centered approach to learning, we believe the best education takes place both inside and outside of the classroom. In our school, we identify and implement new and effective approaches to create superlative learning outcomes.

Therefore, the school has taken the **initiative to launch a technology-backed Comprehensive Career Guidance System powered by Univariety**. Our vision is to nurture future-ready global citizens through academic, physical, psychological and social well-being.

This unique system will take our students from a stage of confusion to clarity by:

- Identifying career interests and potential
- Directing towards the right career path
- Connecting them with seniors to have unfiltered conversations
- Engaging with desired universities and more.

About Univariety:

Univariety has been recognised as the ‘Best Career Guidance Company in India’ by ET Now and EdtechReview. The company is a part of the InfoEdge Group, which also owns Zomato, Naukri, Shiksha, 99acres and other leading companies across different sectors. We are proud to partner with India’s best Career Guidance company.

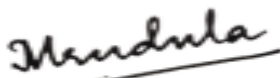

Note: The career guidance fee INR 2,500/- will be included for AY 22-23. Students will receive access to this system, counsellors and all resources allocated

To progress and excel - let’s collaborate to provide our children with the BEST in education and guidance.

In case of any queries around this program reach out to the School Help Desk:
