Date: 6<sup>th</sup> September 2024

Dear Parents,

We are delighted to share with you some exciting news that reflects our commitment to providing academic excellence to countless students as they are nurtured into responsible, future-ready global citizens. In honour of our esteemed Chairman, Dr. A F Pinto, whose visionary leadership has profoundly shaped the landscape of education in India and whose relentless dedication continues to inspire us all, we are thrilled to announce the launch of four new programmes. These programmes reinforce the values and competencies aligned to the 12 Vision Points that form the bedrock of holistic development in our young Ryanites and would further enrich their learning experience at the Ryan group of schools. Please find below details of the programmes

### 1. Rooting Communities

Aligned with Chairman Sir's vision for environmental sustainability, **Rooting Communities** aims to connect our students with local neighbourhoods to support and enhance their green cover. This neighbourhood transformation project encourages learners to actively participate in community-based environmental efforts that promote ecological awareness and responsibility, thereby instilling in them empathy, critical thinking and collaborative skills.

### 2. Global Visa

The vision point Human Resource Development nurtures a variety of skills and competencies such as leadership and management, agility and problem-solving and fosters emotional intelligence. As an initiative of Human Resource Development, **Global Visa** is designed to facilitate our Montessori students to take their first steps as global citizens. This initiative will encourage cultural awareness and support respect for diversity through various activities, including international exchanges and global learning opportunities, helping students understand and appreciate different cultures.

### 3. Book Bridge Project

Another community service initiative that advances a philanthropic mind set and reflects our Chairman Sir's love of reading, the **Book Bridge Project** will undertake a book collection drive of both fiction and non-fiction books. These will be donated to government libraries and orphanages, providing underprivileged students with valuable reading resources and supporting literacy development across the nation.

#### 4. Merit Awards

To recognize and celebrate academic excellence, students achieving 90% or above in their Term I and Term II examinations will be awarded Merit Awards. This initiative honours Chairman Sir's belief in recognizing and rewarding hard work and outstanding achievement amongst Ryanites and as a means to motivate our students to achieve great success and excellence.

We believe these programmes will immensely benefit our students, empowering them to grow into well-rounded, emotionally intelligent, academically successful and globally aware individuals. We are excited to embark on this journey and look forward to your continued support and involvement. Going forward we shall continue to share further details with respect to the progress of these initiatives.

We sincerely thank you for being a part of the Ryan family and for helping us celebrate and uphold the values and vision championed by our remarkable Chairman, Dr. A F Pinto.

Regards,

Principal
