

Circular No. RIAH/013/AY 2023-24

Date: 21 April 2023

Dear Parents,

Warm greetings from Ryan International Academy, Hinjawadi!

Nurture Nature...

The official theme for the year 2023 Earth Day celebration is "**Invest in Our Planet**," a continuation of the theme from 2022, with the aim of convincing businesses, governments, and people all over the world to invest in our planet in order to improve our environment and provide a better and safer future for our offspring. Earth is the only planet which supports life. Earth Day is being observed on 22nd of April 2023 to motivate Ryan Family of Students and Parents to show unanimity for the planet as well as for themselves by switching off all lights and electrical appliances of their homes and offices for an hour. We urge you to switch off all lights and electrical appliances in your homes and businesses for an hour from 8:00 pm to 9:00 pm in order **to raise awareness of climate change problems and promote energy saving.**

Please take a photo (even if it means clicking it in the dark) and upload on the google link on or before 22nd April 2023 and show your solidarity for Mother Earth. By banding together in this way, we can raise awareness of the critical need for action to safeguard the future of our world. The gesture done in solidarity on a mass scale may serve as a wake-up call for people all around the world.

Please find the google link for uploading the photo (copy paste the link in the browser).

Kindly note that participation in this event is optional, but we strongly recommend that students participate and make the most of these opportunities.

Best Regards,

**Sonika Kochhar Girotra
Principal**
