

Dear Parents,

As part of our commitment to building environmentally responsible habits among our students, the school is initiating a **Textile and Old Uniform Collection Drive** in collaboration with sustainability initiatives inspired by **ReCircle**, an organization working towards responsible waste management and textile recycling.

Across the world, millions of tonnes of textile waste end up in landfills every year. Through organized collection and recycling systems, used garments and fabrics can be **reused, repurposed, or recycled**, thereby reducing environmental pollution and supporting a circular economy.

In this spirit, we invite all parents and students to participate in this meaningful initiative.

Collection Details

- Parents may **bring old school uniforms and other textile materials** when they visit the school for the **PTM/Open House on 28 March 2026**.
- The **collection drive will continue until 10 April 2026**.
- Students may also bring textile items (to be donated) to school during this period.

What Can Be Donated

You may contribute the following clean and dry textile materials:

- Old school uniforms
- Used clothes (cotton, denim, wool, polyester, etc.)
- Bed sheets, curtains, towels
- Fabric scraps or any other household textiles

All collected textiles will be responsibly routed for **reuse, upcycling, or recycling** so that they do not end up in landfills.

We also encourage students to extend the impact of this drive by collecting old textiles from homes in their neighbourhood or nearby community, thereby spreading awareness about responsible textile disposal.

Let us work together to reduce waste, protect the environment, and teach our children the value of sustainability and responsible consumption.

We look forward to your wholehearted support.

Warm regards,

Ruchi Masih
