PARENT'S CORNER

As a parent, one of the most important decisions we made was choosing the right school for our daughter. That decision became even more significant when we realized that she needed a nurturing and encouraging environment to truly grow. Her transition from one school to another turned out to be a life-changing experience.

Within just a month, we witnessed a remarkable transformation. From the moment she stepped into her new school, we observed how the teachers went the extra mile to understand her needs and make her feel welcomed. Their **creative teaching methods, regular feedback, and personal attention** encouraged her to speak up, explore, and participate with confidence.

One of our proudest moments was when she took part in the **leadership selection process**—and was **chosen as the Head Girl**. During the **Investiture Ceremony**, she stood on stage and delivered a speech with poise in front of the entire school community. Her confidence and presence left a lasting impression on the audience, including the Principal and the Guest of Honour.

This positive environment has not only enhanced her academic skills but has also nurtured her **emotional and social development**—something we never imagined would happen so soon. We are truly grateful to the school for playing such a meaningful role in her early development.

PARENT'S CORNER

What stands out most is that the school emphasizes **not just academics**, but also creativity and **extracurricular involvement**. This holistic approach has given her the confidence to participate actively in every school activity. These small, consistent efforts have shown us how quickly children can grow when guided with love and patience.

We sincerely thank the school for their continuous **support, patience, guidance**, and for creating a **nurturing environment** that has helped our daughter blossom into a more confident and curious learner.
