

From the Principal's Desk

As we step into the new academic session with renewed enthusiasm and positivity, we extend a heartfelt welcome to all our parents—both returning and new. April marks the beginning of fresh opportunities, renewed goals, and continued collaboration between home and school.

At Ryan, we believe in nurturing young minds through a blend of academic excellence, values-based education, and holistic development. This month, we've set the stage for an exciting journey ahead, filled with vibrant learning experiences, creative expression, and character-building moments.

We thank you for your continued trust and support. Together, let's inspire our children to dream more, learn more, do more, and become more.

Quote of the month

Happiness

*“Whoever is happy will
make others happy too.”*

- Anne Frank, German Diarist

The quote means that true happiness radiates outward. A genuinely happy person naturally spreads joy, warmth, and positivity to others. Their uplifting energy inspires smiles, kindness, and connection. Happiness is not just personal—it influences everyone around us, creating a ripple effect that can brighten even the darkest moments in others' lives.

ARTICLE FROM TEACHER

The Digital Transformation of Education: Opportunities and Challenges

The digital transformation of education has changed how students learn and teachers teach. With online classes, educational apps, and digital tools, learning has become more flexible and accessible. Students can now learn at their own pace and from anywhere in the world.

However, this shift also brings challenges. Not all students have access to devices or the internet, and too much screen time can affect health. Teachers also need proper training to use technology effectively. While digital education offers great opportunities, it's important to ensure it is inclusive and balanced.

ACTIVITIES

First Day at School

The students were warmly welcomed by the teachers with a special morning assembly, thoughtfully curated and performed by the staff. The day continued with the setting of ground rules, a fun finger-dabbing art activity, engaging games, and a delightful takeaway for each child.

World Earth Day

Montessori students celebrated World Earth Day with a fun and creative activity. Children enjoyed tearing and pasting green paper to make beautiful tree crafts, learning the importance of trees and caring for our planet in a hands-on way.

Red Day

Students celebrated Red Day with great excitement. They participated in a fun show-and-tell activity, sharing red-colored objects from home. This was followed by creative activities like finger dabbing to make red balloons and crumbling red paper to stick on apple cutouts, helping children learn about the color red in an enjoyable way.

ASSEMBLIES AT A GLANCE

Special Assembly - on the occasion of International Dance Day

Montessori students enjoyed a vibrant special assembly on International Dance Day. Teachers and students celebrated the joy of dance through lively performances, fun movements, and rhythmic music. The assembly encouraged self-expression, coordination, and brought smiles all around as children danced with enthusiasm and energy.

CO-CURRICULAR ACTIVITY

Recreational PE Session Mont III

In a fun and engaging recreational PE session, Montessori students formed a circle and participated in various active games. The activity encouraged teamwork, movement, and coordination, providing a great way for children to stay active while having fun together.

HANDS ON ACTIVITIES

Making a House using Standing, Sleeping and Slanty lines - Mont I

Students had a creative session where they made a house using different types of lines. They used standing, sleeping, and slanty lines to form the walls, roof, and doors of their houses. This hands-on activity helped children

CO-CURRICULAR ACTIVITY

understand shapes, lines, and how they come together to create objects in the world around them.

Colours Sorting Activity Mont II

Mont II students engaged in a colorful and fun sorting activity, where they sorted various objects based on their colors. This hands-on activity helped children develop their understanding of colors while enhancing their sorting skills and attention to detail.

Shape Sorting Activity of Sphere and Circle Shape Objects - Mont III

In the shape sorting activity, students explored and differentiated between circle and sphere shapes. They were given a variety of objects, including flat circles and 3D spheres, and were encouraged to sort them based on their shapes. The activity helped enhance their visual discrimination skills and their understanding of geometric properties.

INNOVATION LAB ACTIVITY

Fired Glider Activity

Montessori III students participated in a hands-on glider-making project. They were introduced to basic principles of flight and aerodynamics as they designed and built their own gliders using simple materials. The activity encouraged creativity, critical thinking, and problem-solving as students experimented with different shapes and sizes to see how their gliders flew.

PARENT'S CORNER

Balancing Screen Time and Study Time

In today's digital age, screens are everywhere—from learning apps to entertainment. As parents, striking the right balance between screen time and study time is essential for our children's overall growth.

We set clear boundaries at home, such as limiting non-educational screen use and encouraging breaks during long study sessions. We also try to model healthy habits by reducing our own screen time. Simple routines, like keeping devices away during meals and setting a fixed homework hour, have helped our child stay focused. With a little planning, screens can support learning without becoming a distraction.
