

From the Principal's Desk

In the warm and nurturing world of our Montessori classrooms, the seeds of **unity** are sown each day. Whether it's sharing toys, helping a friend zip up their jacket, or holding hands in a circle of song, our little ones are learning one of life's most powerful lessons—that we are stronger, kinder, and happier when we come together.

Unity, for our Montessori learners, begins with simple acts of kindness, listening to one another, and understanding that every friend, no matter how different, is part of the same beautiful classroom family. These early experiences of collaboration and compassion lay the foundation for values that will guide them through life.

As we continue to help them grow, let us celebrate their small steps towards becoming individuals who care, connect, and stand together in harmony.

Quote of the month

Happiness

“Even the weak become strong when they are united.”

- Friedrich von Schiller

This timeless quote reminds us of the remarkable strength that comes from unity. Whether in a classroom, workplace, or community, working together transforms individual effort into collective power. By supporting one another and moving forward as a team, students and employees alike can overcome challenges and achieve shared goals with confidence.

ARTICLE FROM TEACHER

The Power of Soothing Music

In the midst of academic and professional demands, finding moments of calm is essential. Listening to soothing music can help students ease study-related stress and improve concentration, while employees may find it beneficial for reducing workplace tension and enhancing focus. Gentle melodies and harmonious rhythms foster a sense of balance, helping both students and professionals manage daily pressures more effectively. Including a few minutes of calming music in your routine can greatly support mental well-being and productivity.

ACTIVITIES

National Doctors Day

On the occasion of National Doctors' Day, our Montessori students engaged in a fun and meaningful activity by making simple doctor's kits. Using pictures, crayons, and plenty of imagination, the young learners created colourful kits featuring stethoscopes, thermometers, and other tools. This hands-on craft not only sparked creativity but also helped children appreciate the important role doctors play in keeping us healthy and safe.

International Parent's Day

To mark International Parents' Day, our Montessori students invited their parents to school on 26th July 2025 for a joyful celebration. The day was filled with exciting games like balancing on toes, zig-zag races, and scoop the ball, bringing laughter and bonding moments. Parents and children also enjoyed flameless cooking activities, making colourful rainbow sandwiches, monster muffins, and decorating cupcakes together. It was a memorable event that celebrated love, teamwork, and togetherness.

Green Day

Our Montessori students joyfully celebrated Green Day with creative, hands-on activities. Mont I students coloured cheerful caterpillars, while Mont II made caterpillars on leaves using their palm prints. Mont III engaged in a fun "peas in a pod" craft, exploring textures and shapes. Throughout the day, the children also observed and discussed the many beautiful shades of green in their surroundings, deepening their connection with nature in a playful way.

ACTIVITIES

Star of the Week

The Star of the Week celebration was a proud moment as we recognized the efforts and enthusiasm of our shining stars. Vivan Joshi from Mont I, Ishita Patel from Mont II, and Reeyansh Shingade from Mont III were celebrated for their cheerful spirit. The students were applauded by their peers, teachers, and their parents by making it a joyful and motivating experience for all.

CO-CURRICULAR ACTIVITY

PE Session - Hopscotch Relay Fun - Mont III

Mont III students enjoyed an energetic hopscotch relay game that combined fun with coordination. Taking turns to hop, balance, and race, the children cheered for their teams and learned the value of teamwork and fair play. The activity brought smiles and laughter, making for a lively and memorable day.

HANDS ON ACTIVITIES

Math- Arranging Objects as Per the Number Card – Mont I

Mont I students participated in a hands-on activity where they arranged objects according to number cards. By matching quantities with numerals, the children practiced counting, developed number recognition, and strengthened their fine motor skills. This engaging exercise made learning numbers both fun and meaningful.

HANDS ON ACTIVITIES

General Awareness - My School Tour - Mont II

Mont II students went on an exciting “My School Tour” to explore different areas of their school. Walking through classrooms, the library, the playground, and other spaces, children learned about the purpose of each place. The activity helped them feel more connected and comfortable in their school environment, turning familiar spaces into meaningful parts of their daily routine.

Arrange Short 'a' Words through Hands-on Activity Mont III

Mont III students engaged in a hands-on activity where they arranged short 'a' CVC words to match the pictures provided. By identifying words like “cat,” “bag,” and “cap,” children strengthened their phonetic skills and word recognition in an interactive way. The activity made early reading fun and built confidence in connecting sounds to words.

Health Check-up at School

A health check-up was conducted at school to ensure the well-being of all students. Doctors and nurses carried out basic screenings, including checking height, weight, eyesight, and dental health. Such regular check-ups help in early detection of health concerns and promote healthy habits among children, supporting their overall growth and development.

Student's Activity

Ms. Iniya Saha - Mont III 'A'

Matching the Number Card with Respective Number Name.

PARENT'S CORNER

My Lovely Rainy Day

As a parent, witnessing my child embrace the magic of a rainy day is deeply touching. The simple act of watching raindrops trickle down the window, the joy of splashing in puddles, and the creativity sparked by making paper boats remind me of life's gentle pleasures. Moments like these not only bring back treasured memories from my own childhood but also teach us to slow down, reflect, and appreciate the quiet beauty that rain brings into our lives.
