

From the Principal's Desk

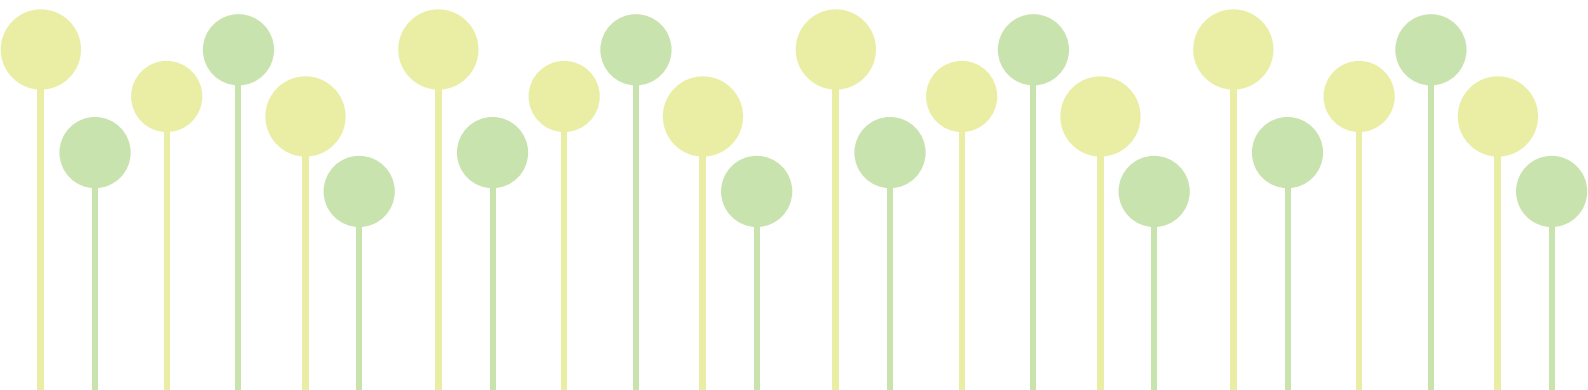

Time is a priceless gift, and teaching our children to manage it well is a life skill that will empower them for the future. As parents, your role is vital in guiding your child towards building strong time management habits.

Encourage your child to prioritize tasks, set achievable goals, and strike a balance between schoolwork, hobbies, and relaxation. By helping them plan their day, you not only reduce their stress but also inspire a sense of fulfillment with each accomplished task.

Your involvement in this process is key—it's not just about moving quickly through the day, but about making thoughtful choices and mastering the art of doing what matters most, when it matters most.

Together, we can equip our children with the focus, confidence, and efficiency they need to thrive in both school and life. Thank you for your ongoing support in this shared journey!

Quote of the month

*"The Earth does not
belong to us;
we belong to the Earth."*
- Marlee Matlin

We do not own the Earth; rather, we are a part of it," highlights the deep connection between humanity and the planet. It underscores our duty to care for and preserve the Earth, shifting the perspective from one of ownership and exploitation to one of guardianship. This view calls for acknowledging our reliance on Earth's ecosystems and acting responsibly to protect its well-being, ensuring its sustainability for generations to come.

FROM TEACHER LEAD'S DESK

Guiding Hearts and Minds!

A mentor's touch inspires every child to reach their fullest potential. A mentor is someone who values each child equally, deeply engaging with their heart, mind, and soul. By recognizing and nurturing each student's unique strengths and needs, a mentor creates a supportive environment where every child feels seen and understood. This empathetic approach fosters trust and encourages personal growth, allowing students to explore their potential with confidence. A mentor's dedication to connecting on these profound levels not only enhances academic performance but also inspires a sense of self-worth and motivation, ultimately guiding students towards achieving their best selves.

Activities

National Doctor's Day

In honor of National Doctor's Day, students celebrated the dedication of doctors through creative activities. They crafted posters promoting health and wellness and transformed classrooms into mock clinics, role-playing as healthcare professionals. This event not only recognized the tireless efforts of doctors but also instilled a sense of responsibility toward health among students, fostering both awareness and appreciation for the medical profession.

International Plastic Bag Free Day

On International Plastic Bag Free Day, students took action against plastic pollution by creating eco-friendly bags from reusable materials. They designed posters emphasizing the dangers of plastic waste and engaged in a school-wide plastic-free challenge. Through these activities, students learned about the importance of sustainability and reducing plastic consumption, highlighting their commitment to a healthier planet.

Environment Week

During Environment Week, students participated in activities aimed at raising awareness of pollution and climate change. Competitions included bookmark-making under the 'Best Out of Waste' initiative, slogan-writing on "My Wish for a Greener Tomorrow," and drawing contests on themes like "Life Below Water." These activities encouraged students to creatively express their love for nature while learning that small actions can significantly impact environmental conservation.

Ryan Sir's Birthday

Students joyfully celebrated Ryan Sir's birthday with crown-making, coloring activities, and a personalized card-making session. An inter-house singing competition added to the festivities, with students showcasing their admiration and respect

Activities

for their beloved leader. These vibrant activities highlighted both their creativity and the values Sir instills in the school community.

World Population Day

World Population Day was marked with interactive workshops and competitions on topics like resource management and family planning. Students expressed their understanding of population issues through poster-making and slogan-writing. The activities fostered critical thinking and helped students grasp the environmental, social, and economic impacts of population growth, encouraging them to become informed global citizens.

National Parents Day

On National Parents' Day, students expressed their gratitude through creative activities, including personalized greeting cards and an inter-class poem recitation competition. They also made "Thank You" posters for their parents, celebrating their love, support, and guidance. The event encouraged students to appreciate their parents' contributions while showcasing their creativity and affection.

International Tiger Day

To celebrate International Tiger Day, students made vibrant paper tiger masks and engaged in tiger conservation activities. Older students participated in a virtual tiger safari and created PowerPoint presentations about tiger habitats. A word puzzle on the Great Bengal Tiger made the event fun and educational, inspiring students to protect these endangered animals for future generations.

Subject Enrichment Activity (Hindi)

Grade III students deepened their understanding of Hindi vowels and consonants through an

Academics

engaging puppet-making activity. Each puppet represented a different letter from the alphabet, making language learning both interactive and fun. This hands-on approach helped students connect with the Hindi language in a memorable way, fostering creativity and language skills.

Star Of The Week

At Ryan International Academy, the 'Star of the Week' initiative celebrates each student's unique qualities and contributions. One student is honored weekly in a special ceremony attended by their parents, which fosters a sense of responsibility and self-worth. The initiative encourages individuality and helps students feel appreciated, inspiring them to embrace their strengths and talents.

English Learning Enrichment Programme (ELEP)

The English Learning Enrichment Programme (ELEP) at Ryan International Academy offers engaging activities to enhance students' English skills. From Dictogloss texts to debates, students from grades I to VIII participated in a variety of exercises. The program culminated in an award ceremony where top performers were recognized, fostering confidence and competence in English communication.

Passion Building Initiative (Eco-Gardening)

Students in the Eco and Gardening Club combined creativity with sustainability by crafting mats from recycled cloth. This activity not only honed their skills but also contributed positively to the environment, fostering a sense of responsibility and innovation.

Home Science Club

The Home Science Club allowed students to explore practical skills like stitching, cooking

Academics

without fire, and creating projects from waste. These activities developed patience, concentration, and creativity, highlighting how home science can be both a rewarding and calming experience.

Mystery Science Club

In the Mystery Science Club, students explored scientific concepts through hands-on experiments. They learned about density by creating rainbow-colored layers using liquids like rose milk and cooking oil. This immersive activity deepened their understanding of scientific principles and sparked their curiosity.

Revival of Lost Art Club

The Revival of Lost Art Club reconnects students with traditional Indian art forms. Recently, students learned Warli Art, creating intricate village scenes on tinted paper. This initiative not only enhanced their art skills but also helped preserve cultural heritage, keeping traditional crafts alive in the modern era.

Vocational Initiative (Coding)

The Coding Club introduced students to the basics of computer science, including logical thinking, algorithms, and flowcharts. Through interactive games and exercises, students built their coding skills, fostering creativity and problem-solving abilities that are essential in today's tech-driven world.

Speech and Drama Club

Students in the Speech and Drama Club explored the power of expression through role-playing and gesture-based activities. Exercises like serving soup at a homeless center helped students develop empathy and non-verbal communication skills, highlighting the importance of body language in storytelling.

Academics

French Language Club

On French Day, students enhanced their vocabulary by labeling common classroom objects in French. This interactive activity not only improved their language skills but also broadened their cultural understanding, reinforcing the idea that learning a new language opens doors to new perspectives.

Optional Sports

Students showcased perseverance and determination in sports like swimming, football, and basketball. Their unwavering commitment to improving their skills reflected the importance of trying "just one more time," emphasizing that success comes through continuous effort and dedication.

Special Assembly On Environmentalism

A special assembly on environmentalism focused on the role students can play in protecting the planet. Through presentations, skits, and discussions, students explored topics like climate change and sustainable living. The assembly concluded with a pledge to adopt eco-friendly practices, inspiring students to take action for a healthier environment.

Class Activities (Innovation Lab)

The Innovation Lab encourages students to think creatively and apply their imagination to hands-on projects. Activities like designing gliders, building hydraulic bridges, and experimenting with water pumps allow students to innovate while gaining practical experience in science and engineering.

Mathematics Centre of Excellence

The Math Centre of Excellence (MCE) aims to

Academics

overcome math phobia by offering engaging and innovative opportunities for students. Through daily sums, puzzles, and interactive activities, MCE nurtures a positive attitude towards math and encourages active participation. The center stands out regionally by celebrating student achievements with "I am an achiever" tokens. In the math lab, students enjoy a fun, hands-on learning experience where math concepts are brought to life in an interactive environment.

Events - Galaxy

Literary Conclave

The Literary Conclave at Ryan International Academy, Hinjewadi, Pune, showcased a vibrant array of inter-school competitions. Highlights included "New Glitzz," a dynamic literary challenge, captivating story narration sessions, and "Weaving a Yarn," where students crafted and presented original tales. The event celebrated creativity and storytelling, offering a platform for students to showcase their literary talents and engage in enriching, competitive activities.

STUDENT'S CORNER

Enhancement and Enrichment is a regular practice

“When those closest to you take pride in your actions and share them with deep respect,” it signifies true success beyond material achievements. In today’s world, where the pursuit of power and success often overshadows personal growth, there is a crucial distinction between merely achieving high status and genuinely realizing success on a personal level. While society races towards advancements like Artificial Intelligence, it often neglects Emotional Intelligence, the cornerstone of a harmonious and fulfilling life. True success is not solely defined by a lofty position, substantial wealth, or luxury possessions, but by meaningful contributions to society. Authentic success involves achieving your goals while upholding humanity, social values, integrity, and a genuine love for others.

- Ms. Gauri Sinha
Grade - IX

PARENT'S TESTIMONIALS

"The drive to win, the passion to succeed, and the determination to reach your full potential are key to unlocking personal excellence." Every child has unique talents that flourish with the right support and inspiration. Encouraging participation in diverse activities and competitions enhances learning, builds confidence, and prepares students to excel. Competitions not only drive performance but also foster innovation and skill development. As a parent, I am proud of the confidence my child has gained through their mentors and urge the school to continue nurturing each student's potential. Together, we can create a brighter future for all students.

- Ms. Deepti Asrani,
Parent of Navya Asrani - Grade VIII 'B'
