

From the Principal's Desk

September arrived like a golden sunrise—quietly majestic, yet full of promise. This month, our school corridors echoed with more than just the sound of lessons and laughter; they carried the heartbeat of a community learning and growing together. A special highlight was **Teacher's Day**, a truly heartwarming celebration where students became storytellers, performers, and even little teachers for a day. Their thoughtful gestures reminded us that teaching is not just about imparting knowledge, but about inspiring hearts. Watching students express their gratitude through poems, skits, and handmade cards was a beautiful affirmation of the deep respect they hold for their mentors.

Beyond celebrations, September became a canvas for creativity, character, and connection. Whether solving complex problems in class or working together in vibrant cultural activities, our students showed us what it means to learn with joy and lead with empathy. They embraced each opportunity—not just to grow academically, but to understand the world and their role in shaping it. As we turn the page to the next chapter of this academic year, I feel immense pride in the spirit our school continues to nurture: one that celebrates learning as a lifelong adventure, guided by compassion, curiosity, and courage.

Value - “Integrity”

This September, our students brought to life a value that quietly shapes leaders and builds trust—Integrity. The special assembly unfolded like a living story, with heartfelt performances, reflective monologues, and scenes from everyday choices that tested character.

At its core was a timeless reminder by C. S. Lewis:

“Integrity is doing the right thing, even when no one is watching.”

With this thought as their compass, our students explored how integrity isn’t about recognition—it’s about inner strength. Whether through a friend returning a lost item, a student admitting a mistake, or a leader standing up for what’s right, each act on stage reflected the quiet courage it takes to live with honesty. It was more than an assembly; it was a call to wear the invisible medal of integrity—not for applause, but because it’s the right thing to do.

ACADEMIC ACTIVITIES

Literacy - Introduction to Letter I, J, K , L – Mont I

The month of September was filled with joyful learning as our Montessori I children were introduced to the letters I, J, K, and L. Through a variety of interactive and hands-on activities, the children learned to identify, pronounce, and trace each letter with enthusiasm.

They enjoyed exploring the world of words beginning with these letters—such as I for Ice cream, J for Jug, K for Kite, and L for Lion—through picture cards, rhymes, and storytelling sessions. Engaging activities like coloring, sorting objects, letter hunts, and clay molding helped reinforce letter recognition and sound association.

The tracing practice not only strengthened their pre-writing skills but also improved their fine motor coordination. The children actively participated in each task, showing curiosity and joy as they discovered new letters every week. The month concluded with a fun recap activity, where children confidently identified objects related to all four letters.

Learning the letters I, J, K, and L truly added a spark of excitement to their English sessions, making the foundation of literacy both strong and enjoyable.

Numeracy Skill - Introduction to Number 8, 9, 10, 11 Mont I

In the month of September, our Montessori I children were introduced to the numbers 8, 9, 10, and 11 through a variety of joyful, hands-on activities. The little learners practiced counting, tracing, and number recognition using colourful manipulatives such as beads, blocks, and counters.

Children learned to count objects accurately and relate each number to a set of real-life items, such as pencils, toys, and fruits. Engaging activities like count and match, stick and paste, and number formation on sand trays made the concept more meaningful and enjoyable.

They also participated in group counting

ACADEMIC ACTIVITIES

games and number rhymes, which helped them strengthen their understanding of sequence and quantity. By the end of the month, children could confidently recognize and write numbers up to eleven, demonstrating steady progress in their numeracy skills.

The month truly reflected joyful learning as the children continued to build a strong foundation in numbers through exploration, observation, and fun-filled practice.

General Awareness - Farm Animals and Pet Animals Mont I

The month of September was an exciting journey of exploration for our Montessori I children as they learnt about the topics Colour of Nature, Farm Animals, and Pet Animals.

To understand the Colour of Nature, children observed and identified different colours found in their surroundings—such as green trees, blue skies, and colourful flowers. They enjoyed sorting and stacking activities using coloured objects and crayons, which helped them appreciate the beauty and diversity in nature.

During the Farm Animals topic, children were introduced to animals like the cow, goat, sheep, and hen through picture cards, models, and rhymes. They learned about the sounds these animals make and the useful things they give us, such as milk, eggs, and wool.

The topic on Pet Animals helped children identify animals that live with us at home, like the dog, cat, and fish. Through stories, role-play, and show-and-tell sessions, they learned how to care for and love their pets.

The month's activities encouraged curiosity, observation, and empathy towards all living beings, making learning about nature and animals both educational and enjoyable.

ACADEMIC ACTIVITIES

Music – Mont I

Song: God's Love

In the month of September, Montessori I students joyfully learned the song “God’s Love” along with their music teacher. Through this beautiful and gentle melody, the children learned about love, kindness, and gratitude in a fun and musical way. They enjoyed singing together, following the rhythm, and performing simple actions that matched the lyrics. The activity helped them build confidence, improve listening skills, and experience the joy of expressing emotions through music.

Dance - Mont I

Song: This is The Day

Montessori I students joyfully learned the dance song “This Is the Day”, a lively and rhythmic tune that helps children express happiness and gratitude through movement. The song was taught in an interactive way, with children following the teacher’s actions, clapping, and moving to the beat. Through this joyful activity, the little ones not only enjoyed dancing but also developed coordination, rhythm, and confidence while learning to follow simple instructions in a fun and engaging manner.

ACTIVITY

Math - Exploring Spindle Box 5 - 9

The spindle box (5-9) was Revised to the Mont children to help them recognize numbers and understand the concept of counting. The children placed the correct number of spindles into each compartment, matching quantity with the numeral. This hands-on activity not only developed their number sense but also enhanced fine motor skills, concentration, and independence while making learning joyful and concrete.

ACTIVITY

EVS - Farm Animals

In the month of September, Mont I children actively participated in an engaging EVS activity on Farm Animals. Each child was given a flash card with the picture of a farm animal. They carefully observed the image and confidently named the animal using a complete sentence. For example, a child holding a card with a cow said, "This is a cow." The activity helped the children connect the picture with its name and practice forming sentences. The children thoroughly enjoyed identifying the animals and speaking in front of their friends, which also boosted their confidence and communication skills.

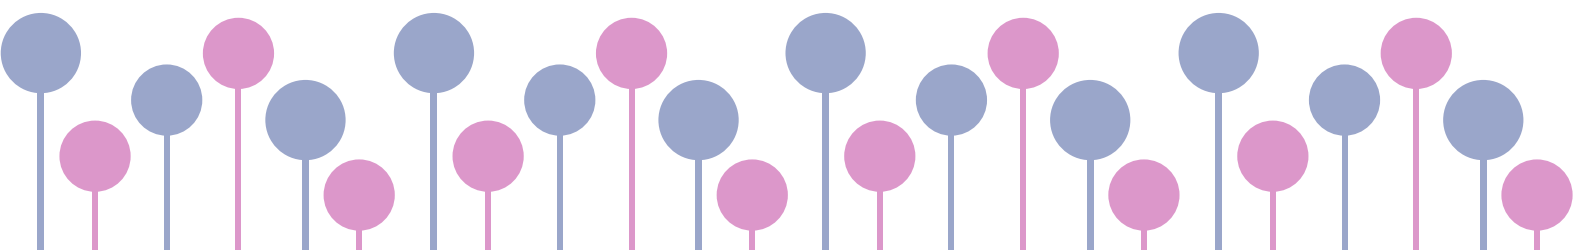

Literacy - Letters J, K, L, M, N, O, P, Q - Mont II

This month, our young learners explored the letters J to Q through the exciting theme "Animals and Food." The children had a wonderful time connecting each alphabet with familiar animals and tasty foods.

They joyfully identified J for Jellyfish and J for Jam, learning how both belong to the world of animals and food. With K for Kangaroo and K for Kiwi, they enjoyed hopping like kangaroos and tasting delicious kiwi fruit. L for Lion and L for Lemon helped them practice sounds while roaring and making funny sour faces!

The excitement continued with M for Monkey and M for Mango, N for Nest and N for Noodles, and O for Owl and O for Orange, where they matched animal and food pictures and traced letters with confidence. They ended with P for Penguin and P for Pizza, and Q for Quail learning that even animals and foods can start with the same sounds!

Through stories, rhymes, and art activities, children strengthened their letter recognition, vocabulary, and pronunciation skills — all while having fun learning about their favorite animals and foods.

ACADEMIC ACTIVITIES

Mathematics - Numbers 21-30, Ordering and Comparing Numbers, Smaller and Greater Numbers – Mont II

This month, our little mathematicians had fun exploring exciting new concepts! They learned about inside and outside through playful sorting activities, placing objects and toys in and out of baskets to understand spatial awareness. The concept of on and under was introduced with interactive games — children placed blocks on the table and toys under the chair, making learning both visual and fun.

They also practiced ordering and comparing numbers, arranging number cards in the correct sequence and identifying which numbers are greater or smaller. Building this understanding helped them strengthen their number sense and logical thinking.

The highlight of the month was learning numbers 21 to 30. Through counting beads, clapping exercises, and number writing practice, children confidently recognized, counted, and wrote these numbers.

With hands-on activities and joyful learning, our students are steadily growing into confident little number explorers!

General Awareness - Fruits and Vegetables, Healthy and Unhealthy Food - Mont II

This month, our young learners explored the exciting topics of Fruits and Vegetables and

ACADEMIC ACTIVITIES

Healthy and Unhealthy Food. Through engaging discussions, songs, and sorting activities, children learned how fruits and vegetables keep our bodies strong and healthy. They enjoyed identifying different colors, shapes, and names of fruits and vegetables while talking about their favorite ones.

They also discovered the difference between healthy foods that give us energy — like fruits, vegetables, milk, and nuts — and unhealthy foods such as chips, chocolates, and sugary drinks that should be eaten only sometimes. Fun role-play and chart-making activities helped children understand the importance of making healthy food choices every day.

Our little ones are now becoming more aware of the foods that help them grow and stay active!

Music – Song: I’ve Got Peace Like a River and Na Na Na, I’m So Happy - Mont II

Montessori students learned the song “I’ve Got Peace Like a River,” which is a gentle and repetitive song with simple verses and actions that help children understand peace, love, and joy through music and movement.

They also learned “Na Na Na, I’m So Happy,” a lively and rhythmic song with a catchy chorus and energetic beats that encouraged the children to sing, clap, and dance joyfully while expressing their happiness.

ACADEMIC ACTIVITIES

Dance – SONG: I’ve Got the Joy, Joy, Joy – Mont II

Montessori II students enthusiastically learned the joyful dance “I’ve Got the Joy, Joy, Joy”, a cheerful and lively song that celebrates happiness and positivity. The children learned the dance through fun, step-by-step movements guided by their teacher, combining hand actions, claps, and rhythmic steps to match the song’s upbeat tempo. This engaging activity helped the students improve their coordination, listening skills, and confidence while enjoying the spirit of music and dance in a playful way.

Sports – Game – Ring Run Away – Mont II

Children enjoyed playing the Ring Run Away game with lots of excitement and laughter. They ran in circles, waiting eagerly to find the ring dropped behind them. The game helped them learn to stay alert, run fast, and have fun with their friends. It was a joyful and playful activity for everyone!

Math – Ordering Numbers – Mont II

In the month of September, Montessori II children participated in a hands-on activity of ordering numbers from 1 to 20. The teacher arranged the numbers in different ways — from smaller to bigger and from bigger to smaller — to help the children identify and understand number order. Through this fun and interactive activity, the students learned to recognize the biggest, bigger, smaller, and smallest numbers and practiced arranging them correctly. It was an engaging way to strengthen their number sense and sequencing skills.

ACADEMIC ACTIVITIES

EVS - Fruit Salad Activity

In the month of September, Montessori II children enjoyed a fun and healthy fruit salad activity. Each child brought fresh fruits from home, and with the help of their teacher, they cut and mixed them to prepare a delicious fruit salad. Through this hands-on activity, the children learned to identify different types of fruits, their colors, and the first letters of their names. They also discovered that fruits are rich in vitamins and minerals that help keep the body strong and healthy. It was a joyful and educational experience that encouraged healthy eating habits.

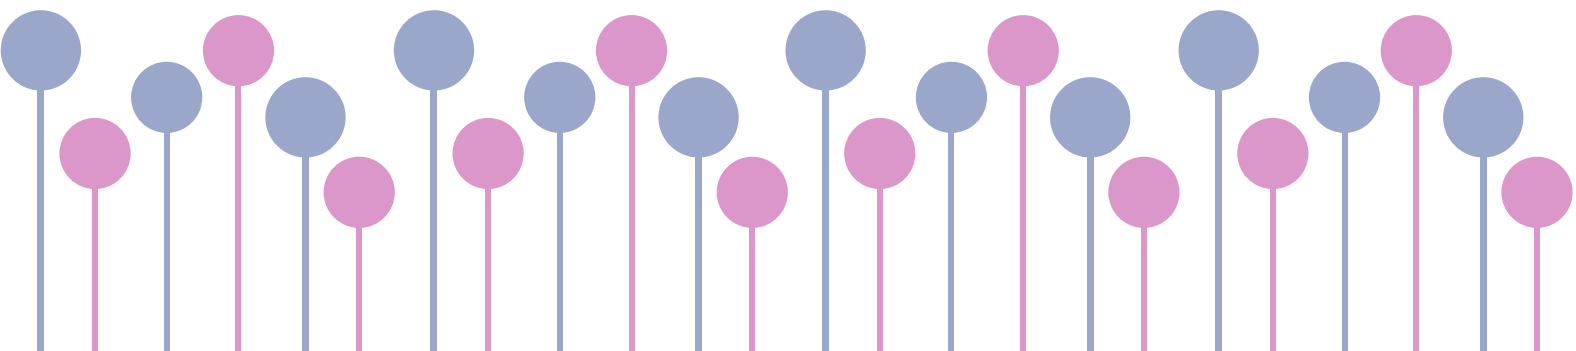

Literacy - Word Families (-eg, -et, -ed, -en,), Cursive Letters a-z, Sight Words - Mont III

In the month of September, our Mont III children actively engaged in various English learning activities. They explored the theme “Plants and Animals”, where they learnt about different living things and their importance in our environment. The children enjoyed identifying animals and plants through fun stories, songs, and picture cards that helped them understand nature better.

They were also introduced to sight words, which helped them recognize and read simple words confidently. Through daily reading and flashcard exercises, children improved their vocabulary and reading fluency. Alongside, they continued practicing cursive writing from a to z, learning to form each letter neatly and beautifully.

In addition, the little learners worked on word families like eg, et, ed, and en, reading and matching words such as peg, pet, bed, and pen. These fun phonics activities strengthened their spelling and sound recognition skills. Overall, the month was full of joyful learning experiences that built their foundation in reading and writing.

ACADEMIC ACTIVITIES

Mathematics - Introduction to Least and Most, Number Names 1-10, Missing Numbers 1-60, Comparing Numbers and Ordering Numbers - Mont III

In the month of September, our Mont III children were introduced to the concept of "Least and Most." Through hands-on activities using blocks, beads, and classroom objects, they learnt to identify which group had the least or the most items. These fun exercises helped children develop early comparison and counting skills, building a strong foundation for understanding numbers.

Children also practiced number names from 1 to 10, learning to read, write, and recognize them confidently. With the help of number charts, flashcards, and songs, they enjoyed connecting numbers with their written forms. This activity strengthened their number recognition and improved their spelling of basic number words.

They further worked on missing numbers, comparing numbers, and ordering numbers from 1 to 60. Engaging games like number sequencing and number line activities helped them arrange numbers in correct order. They also learnt to identify which number is greater or smaller while comparing. These activities enhanced their logical thinking and improved their confidence in counting and number order.

ACADEMIC ACTIVITIES

General Awareness - Fruits and Vegetables, Types of Plants, Parts of The Plants, Domestic Animals, Insects, Crawling Animals, Animal Homes - Mont III

In the month of September, our Mont III children explored the topic of Fruits and Vegetables with great excitement. They learnt to identify different fruits and vegetables by their colors, shapes, and tastes. Through sorting, picture matching, and role-play

activities, children understood how fruits and vegetables are important for a healthy life. These fun learning experiences helped them build vocabulary and encouraged healthy eating habits.

They were also introduced to Types of Plants and Parts of a Plant. Using real plants and visual aids, the children observed how plants grow and identified the main parts such as roots, stem, leaves, flowers, and fruits. They learnt about big trees, small shrubs, and tiny herbs, and discussed how each plant is useful to us. These activities helped them appreciate the beauty of nature and understand the importance of taking care of plants.

Further, the children learnt about Domestic Animals, Insects, Crawling Animals, and Animal Homes. They identified animals that live with us, such as cows, dogs, and cats, and discussed how they help humans. Through picture cards and storytelling, they also explored tiny insects and crawling creatures, understanding where they live and how they move. Learning about animal homes like nests, burrows, and kennels made the topic more interesting and interactive. The children truly enjoyed discovering the wonderful world of animals around them.

Music - Mont III

Song: I've Got Peace Like A River And Na Na Na, I'm So Happy

Montessori students learned the song "I've Got Peace Like a River," which is a gentle and repetitive song with simple verses and actions that help children understand peace, love, and joy through music and movement.

They also learned "Na Na Na, I'm So Happy," a lively and rhythmic song with a catchy chorus

ACADEMIC ACTIVITIES

and energetic beats that encouraged the children to sing, clap, and dance joyfully while expressing their happiness.

Dance - Mont III

Song: "Remind Me" by Gateway

In the month of September, Montessori III students learned the dance song "Remind Me" by Gateway, performing it in a lively freestyle manner. The children thoroughly enjoyed expressing themselves through creative movements, feeling the rhythm, and dancing freely to each beat. Their enthusiasm and energy made the learning process joyful, as they explored new steps, improved coordination, and celebrated music with excitement and confidence.

Innovation Academy - Introduction to Electric Circuit(Copper Tape) & Flash Light Making - Mont III

In the month of September, the Montessori III children of Innovative Academy explored the exciting world of Electric Circuits through a fun Flashlight Making Activity. The little learners discovered how electricity flows and helps light up a bulb. They enthusiastically connected wires, batteries, and bulbs to create their very own working flashlights. This hands-on activity sparked their curiosity and understanding of how simple circuits work, making learning both fun and innovative!

ACADEMIC ACTIVITIES

Math - Making Numbers Fun with Tens and Ones Mont III

Students were introduced to the concept of place value using a tens and ones frame. The numbers from 51 to 60 were demonstrated with the help of bundles/sticks (for tens) and single counters/beads (for ones). Children practiced representing each number by placing the correct number of tens and ones in the frame. For example, 54 was shown as 5 tens and 4 ones. They then participated in a hands-on activity where each child picked a number card from 51-60 and represented it on the tens and ones frame using objects like ice-cream sticks, beads, or cutouts. This interactive approach made learning both visual and engaging.

EVS - Sorting of Fruits and Vegetables

Montessori children enjoyed a fun sorting activity on fruits and vegetables. The teacher placed a mix of fruits and vegetables together in one tray, and the children were asked to identify and separate them. By carefully observing each item, they recognized which were fruits and which were vegetables and placed them in their respective trays. This activity helped the children improve their observation, classification, and thinking skills while learning about healthy food in an enjoyable way.

National Nutrition Week – A Colourful Celebration of Health Fruits & Vegetables Parade Grades I to VII

September bloomed with color and energy as we celebrated **Nutritional Week**, turning the spotlight on the importance of healthy eating and smart food choices. The highlight of the week was the delightful **Fruits and Vegetables Parade**, where our young learners dressed up as their favourite fruits and

ACADEMIC ACTIVITIES

veggies, proudly marching with bright smiles and even brighter costumes!

From juicy strawberries to crunchy carrots, the parade turned our campus into a walking rainbow of nutrition. Alongside the fun, students learned about the benefits of eating fresh, seasonal produce and how food fuels not just our bodies, but our minds. Through songs, interactive games, and creative presentations, children embraced the idea that **healthy is happy**—and that every plate is a chance to choose wellness.

Teacher's Day Celebration – Honouring Our Guiding Lights - Grades I to VII

This September, our school came alive with joy and gratitude as we celebrated **Teacher's Day**, a special occasion dedicated to honouring the mentors who inspire, guide, and shape the future. Our students took center stage with heartfelt performances—songs, dances, skits, and speeches—that beautifully expressed their appreciation for the dedication and kindness of their teachers.

The celebration was more than just a program; it was a heartfelt thank-you woven with smiles, laughter, and moments of reflection. From creative handmade cards to surprise gifts, every gesture echoed the deep respect and love our students feel for their teachers. It was a touching reminder that teaching is not just a profession but a lasting bond that shapes lives and lights the way forward.

ACADEMIC ACTIVITIES

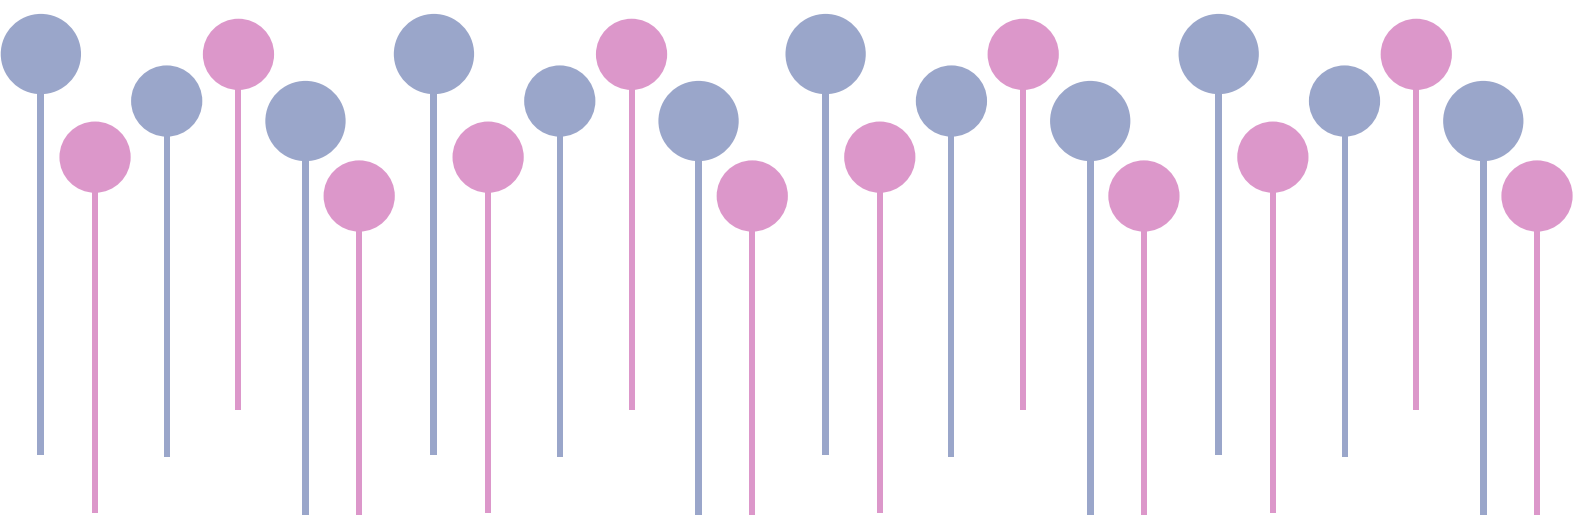

Orange Day Celebration Mont I to III

In the month of September, the Montessori students joyfully celebrated Orange Day with great happiness and enthusiasm. The classrooms were beautifully decorated with orange-colored balloons and objects, creating a bright and cheerful atmosphere. Children spoke about their favorite orange-colored toys and participated in various fun learning activities. Mont I students enjoyed earbud painting on orange, Mont II students engaged in craft paper sticking and carrot coloring, and Mont III students created a lion face with fork painting and did hen coloring activity. The day was filled with excitement, creativity, and smiles as children celebrated the vibrant color orange.

Star of The Week

To make our little learners feel extra special, we have introduced the Star of the Week program! Each week, one child will be chosen as the shining star of the class. On Friday, the star student will get a wonderful opportunity where their parents are invited to school. Together, they will share their favorite things, talk about what they love most in school, and express their hobbies and interests with their classmates. The star student will also proudly introduce their friends to their parents, making the day more joyful and meaningful. This activity not only boosts confidence and communication skills but also strengthens the bond between school, children, and families.

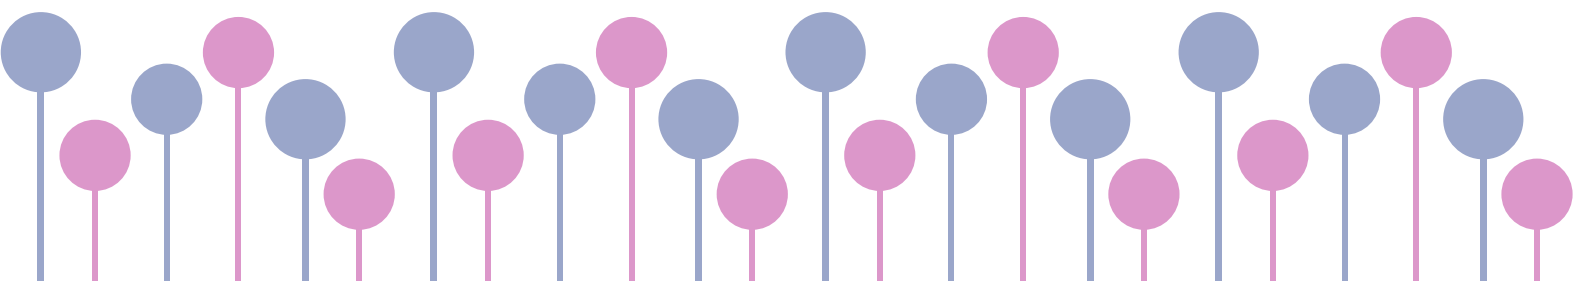

September bloomed with laughter, curiosity, and wonder in our classrooms. Like little explorers, our Mont III children set out on new learning adventures — discovering numbers, words, and the beauty of the world around them. Each day was like turning a new page in a storybook, filled with colors, ideas, and joyful learning moments that made their eyes sparkle with excitement.

As teachers, we feel grateful to walk beside them on this journey — guiding, cheering, and celebrating every tiny milestone. Their giggles, questions, and “aha!” moments remind us why teaching is truly the art of touching hearts and shaping dreams. Here’s to another beautiful month of learning, laughter, and little triumphs that make big memories

**-Ms. Nandini M,
Class Teacher - Mont III 'A'**

PARENT'S CORNER

As a parent, it fills my heart with joy to see how beautifully Chiraksh is growing and learning each day at school. The engaging activities and thoughtful teaching methods make learning exciting for the children. I have seen a positive change in Chiraksh's confidence and communication skills, and he eagerly looks forward to sharing his school experiences at home.

I truly appreciate the efforts of the teachers in nurturing not just academics but also values and creativity. It's wonderful to see how the school creates a happy and safe environment where every child feels special and motivated to learn.

**- Ms. Ravindra Prasad,
Parent of Aatharv R - Mont III 'B'**

Upcoming Events

- Grandparents Day
- AirForce Day
- Global Handwash Day
- Diwali Diya Decoration
- Wonderful White Day
