Harmony with Nature – Breathe, Celebrate, and Grow

At Ryan, we believe that education is not just about books and exams—it is about nurturing the nature of every child and living in harmony with the world around us.

This month, as the rains refresh the earth and breathe new life into every corner of nature, our newsletter echoes a powerful message: true growth comes from harmony—with nature, with others, and within ourselves.

When we say nature, we don't mean only trees, rivers, or skies—we mean the unique nature of every student. When we give them the space to breathe, the freedom to be themselves, and when we celebrate even their smallest achievements, they begin to grow—stronger, happier, and more in sync with the world.

Mother Earth offers us so much—beauty, abundance, life. At Ryan, we guide our students to recognize this wealth and learn to live respectfully and responsibly with it. Teaching children to value the Earth's gifts is just as important as teaching them math or science. This connection nurtures empathy, awareness, and a sense of purpose.

The theme of this edition, "Harmony with Nature – Breathe, Celebrate, and Grow", is a reflection of both our surroundings and our students. When we respect and honor both, we cultivate a culture that fosters joy, gratitude, and mindful growth.

Let's raise children who don't just grow up, but grow in harmony—with their dreams, their environment, and their inner nature.

- Ms. Sonika Kochhar Girotra,
Principal, RIAH

Editorial Committee:

Ms. Sonika Kochhar Girotra - Principal

Ms. Kirti Ranjan - Middle School Coordinator

Thought of the Month

**"When we breathe in harmony with nature,
we celebrate life and nurture growth
within and around us."**

Being aligned with nature's rhythm helps us cherish each moment, fostering personal and environmental growth. As we respect nature, it enriches our lives, creating balance and harmony.

Coordinator's Speak

At Ryan International Academy, Hinjawadi, we believe that education goes far beyond the boundaries of books it lies in the rustling of leaves, the warmth of the sun, and the rhythm of rain. Our theme for the month, "Harmony with Nature Breathe, Celebrate, and Grow," has beautifully encapsulated this philosophy, guiding our children towards learning with heart, hands, and soul.

Throughout the month, classrooms blossomed with meaningful, nature-inspired activities. From seed ball making and tree-themed art to storytelling under open skies, our children immersed themselves in experiences that deepened their connection to the environment. Whether it was the twinkle in a child's eye while observing a butterfly or the joy of planting a sapling, each moment reflected the essence of joyful learning.

As a Ryanite, witnessing this journey unfold has been heartening. I have seen young minds breathe freely, celebrate curiosity, and grow with kindness learning not just about nature, but with it. With every activity, our students not only built knowledge, but also empathy, respect, and responsibility towards the world they are a part of.

May we continue to sow these values deeply and nurture them gently one smile, one seed, one moment at a time.

**- Ms. Kirti Ranjan,
Middle School Coordinator**

Coordinator's Speak

In a world bustling with activity and constant change, finding harmony with nature offers a profound sense of peace and rejuvenation. It's about more than just being outdoors; it's a celebration of life itself—a reminder to breathe deeply, embrace the beauty around us, and nurture growth in all its forms.

Nature teaches us resilience as we witness seasons change and life cycles unfold. From the vibrant colors of spring to the tranquility of a winter snowfall, each moment in nature invites us to pause, reflect, and grow. By connecting with the natural world, we reconnect with ourselves—finding solace in its rhythms and wisdom in its simplicity.

Celebrating nature isn't merely an act; it's a mindset—a conscious choice to appreciate the Earth's gifts and protect its delicate balance. Whether through gardening, hiking in a forest, or simply watching a sunset, every interaction with nature deepens our understanding of interconnectedness and fosters a sense of belonging.

Let's cherish this symbiotic relationship, where nature nourishes our souls as we, in turn, care for its future. Together, let's breathe in the essence of nature, celebrate its wonders, and grow in harmony with the world around us.

**- Ms. Archana Tiwari,
Primary Coordinator**

Activities

Father's Day

On 13th June 2025, Ryan International Academy, Hinjawadi celebrated Father's Day with warmth and creativity, honouring the love, support, and guidance of fathers and father figures in our students' lives. The occasion saw enthusiastic participation across Grades I to IX, with thoughtfully planned activities that allowed students to express their feelings through art, letters, and poetry.

Students of Grade I & II joyfully took part in an "I Love You, Dad" card-making competition. Using folded paper, vibrant drawings, stickers, and heartfelt messages, they created adorable cards that captured the innocent love and admiration they feel for their fathers.

In Grades III to V, children penned heartfelt thank-you letters to their dads or a father figure. Guided by prompts such as "Thank you for teaching me..." and "I remember when we...", the letters reflected deep gratitude, cherished memories, and the special bonds they share.

For Grades VI to IX, a poem-writing competition titled "Thanks, Dad" encouraged students to craft original poems expressing love, appreciation, and the invaluable role fathers play in their lives. These beautifully composed verses showcased emotional depth, creative thinking, and linguistic flair.

The celebration was a touching tribute to fatherhood, reminding us of the strength, wisdom, and affection fathers provide every day.

World Music Day and International Yoga Day Celebrated with Musical Harmony and Movement

To mark World Music Day and International Yoga Day, Ryan International Academy,

Activities

Hinjawadi, organised a vibrant Inter-House Musical Yoga Competition for students of Grades I to IX. The event creatively merged the mindfulness of yoga with the universal language of music, promoting both physical well-being and emotional balance.

Students from each house presented beautifully choreographed yoga sequences, synchronised with soothing music. Their performances reflected poise, discipline, teamwork, and artistic expression. The harmonious blend of asanas with rhythm captured the true essence of the celebration uniting body, mind, and soul through movement and melody.

The competition saw enthusiastic participation from all houses. Aryabhata House emerged as the overall winner, followed by Einstein House in second place and Newton House in third.

This special occasion not only instilled values of wellness and harmony but also reinforced the school's vision of nurturing confident, balanced, and culturally aware individuals. The event concluded on a note of joy and reflection, reminding everyone of the powerful connection between music, movement, and inner peace.

Community Service

At Ryan International Academy, we believe that values like kindness, compassion, and responsibility are best nurtured early. As part of our continuous efforts to instill these virtues, our young learners recently participated in a heartfelt community service initiative under the banner of "Ankuram: Plant a Sapling, Plant a Life."

The aim of this activity was to bring students closer to nature while encouraging them to contribute meaningfully to their community and the environment. Children were encouraged to plant a sapling in their

Activities

surroundings or at home and share a picture along with their name through a dedicated link.

From planting saplings in gardens, balconies, and community parks to decorating their pots with love, our learners showcased not only creativity but also deep-rooted care for the planet. These small acts of greening the Earth are steps towards a better tomorrow and a testimony to the spirit of service that Ryanites proudly uphold.

As rightly said:
“Giving brings a far greater blessing than receiving.”

Our learners embodied this spirit beautifully by serving nature and society in their own unique ways.

We extend our heartfelt appreciation to all the students and families who participated in this noble cause. Let us continue nurturing these values and growing together into responsible, kind-hearted global citizens. Together, let's keep sowing the seeds of change.

Classroom Activities

Exploring Mathematics Through Hands-On Learning

Mathematics came alive in the classrooms of Ryan International Academy, Hinjawadi this month as students from Grades I to IX engaged in interactive and creative activities designed to make abstract concepts tangible and fun.

In Grade I, students played number games involving forward and backward counting from 1 to 50 and a before-after-between

Classroom Activities

circle activity. They also worked in groups to identify numbers using tens and ones representation, reinforcing their understanding of place value. Grade II students explored the value of three-digit numbers using blocks and enhanced their addition skills through a dice-based game. These tasks built a strong numerical foundation and promoted critical thinking.

Grade III learners played a collaborative addition game called *Passing the Question*, which promoted mental arithmetic and teamwork. In Grade IV, students wrote their own word problems and exchanged them with peers, merging storytelling with problem-solving. Grade V students explored 3D geometry by experimenting with cube nets—cutting, folding, and testing shapes to understand spatial structure.

In Grade VI, students visualised multiplication through grid sheets, learning about area and number patterns through rows and columns. Grade VII investigated corresponding angles using capital letters such as F, Z, and H, applying their understanding of parallel lines and transversals in a novel way.

Grade VIII discovered the exterior angle property of triangles through precise measurement with protractors, reinforcing geometric rules through practical observation. In Grade IX, students explored the concept of planes using paper models and props. Working in groups, they analysed relationships between points, lines, and planes in three-dimensional space, making abstract geometry more accessible and meaningful.

These immersive activities across the grades showcased that maths is not just about numbers—it's about patterns, reasoning, creativity, and collaboration. Our students not only strengthened their mathematical skills but also developed confidence and a love for learning through every hands-on experience.

Classroom Activities

रचनात्मक गतिविधियाँ: विज्ञान, नाटक और पुनः उपयोग से भरी शिक्षाप्रद पहल

हवा की मुश्किल – पिनव्हील निर्माण

कक्षा IV के छात्रों ने "हवा की मुश्किल" विषय के अंतर्गत एक अनोखी गतिविधि में भाग लिया, जिसमें उन्होंने रंगीन कागज़, पिन और सींक की मदद से आकर्षक पिनव्हील (चकरी) बनाई। इस गतिविधि के माध्यम से बच्चों ने हवा की दिशा को पहचानना सीखा। जब उन्होंने पिनव्हील को बाहर हवा में घुमाया, तो उन्होंने महसूस किया कि हवा किस दिशा से चल रही है। इस प्रकार, यह गतिविधि विज्ञान की अवधारणाओं को सरल और रोचक ढंग से समझाने में सफल रही।

खिलौनेवाला – नाट्य रूपांतरण

कक्षा VII के छात्रों ने पाठ 3 "खिलौनेवाला" का नाट्य रूपांतरण प्रस्तुत किया। इस मंचन ने बच्चों को अभिनय के माध्यम से पाठ की गहराई को समझने, भावनाओं को व्यक्त करने और संवाद कौशल विकसित करने का सशक्त अवसर दिया। बच्चों ने नाटक के माध्यम से सेवा, करुणा और परोपकार के मूल्य आत्मसात किए। इस गतिविधि ने उनमें आत्मविश्वास, टीमवर्क और भाषा पर पकड़ को भी बढ़ावा दिया।

पुराने डिब्बों से गुल्लक बनाना

कक्षा III के छात्रों ने पुनः उपयोग की अवधारणा को समझते हुए पुराने डिब्बों से सुंदर गुल्लक तैयार किए। इस रचनात्मक प्रयास से उन्होंने न केवल पर्यावरण संरक्षण के महत्व को सीखा, बल्कि आर्थिक जागरूकता और बचत की आदत को भी अपनाया।

इन सभी गतिविधियों ने छात्रों को विषय की गहराई तक पहुंचने, रचनात्मकता को उजागर करने और व्यावहारिक ज्ञान से जोड़ने का अवसर प्रदान किया।

Mystery of Science

As part of the Passion Building initiative at Ryan International Academy, Hinjawadi, the Mystery of Science Club continued to ignite curiosity and creativity among students throughout June. The club provided an engaging platform for young learners to explore scientific concepts through exciting hands-on experiments.

This month, students enthusiastically participated in various fascinating activities, including balloon rocket launches to understand air pressure, the magic milk experiment to observe chemical reactions, and the climbing colours experiment using turmeric, vinegar, and detergent. They also explored soil testing, paper chromatography, pendulum swings, and float-and-sink challenges to grasp concepts like density and material properties. These interactive experiments helped students bridge theoretical knowledge and everyday experiences in a fun and meaningful way.

A notable highlight was creating homemade lava lamps using oil, water, and effervescent tablets, vividly demonstrating liquid separation and gas release. The bubbling effects captivated the students, prompting insightful discussions on liquid interactions. Through these sessions, our young scientists honed their critical thinking, observation skills, and confidently presented their findings.

Foreign Language - French

At Ryan International Academy, Hinjawadi, the French Vocational Initiative continues to enrich language learning through a structured, engaging, and progressive approach tailored for Grades I to VIII. The June sessions were thoughtfully designed to nurture linguistic confidence, cultural awareness, and communication skills through age-appropriate themes and immersive activities.

IKIGAI

In Grades I to III, students explored basic French greetings, numbers, days of the week, and introductory phrases. These concepts were reinforced through songs, chants, storytelling, and visual prompts making language acquisition joyful and intuitive. Grade IV and V advanced their vocabulary through practical topics such as food, family, and daily routines, with an emphasis on pronunciation, sentence structure, and guided dialogues.

Students in Grades VI to VIII delved into more advanced linguistic elements, including grammar rules, comprehension passages, peer conversations, and cultural comparisons. Activities such as role play, vocabulary games, and French song recitation fostered active participation and deepened engagement with the language.

This month's initiative not only strengthened academic proficiency in French but also helped develop key 21st-century skills such as critical thinking, collaboration, and global citizenship. It laid a strong foundation for students to appreciate linguistic diversity and to communicate confidently in a global context.

Innovation

June, has been a month filled with creativity, innovation, and discovery at Ryan International Academy, as our young learners engaged enthusiastically in various STEM-based projects.

Grade I: Students ventured into meteorology through the "My Weather Station" project, designing wind vanes, rain gauges, and barometers. Through hands-on exploration, they learned to measure and understand different weather conditions, sparking a deeper interest in weather observation.

Grade II: Students discovered principles of fluid pressure by participating in the "Fluid

IKIGAI

Pressure Strength Game" and constructing a hydraulic arm. These activities vividly illustrated how fluids create force and motion, introducing essential engineering concepts through interactive play.

Grade III: Our young scientists explored modern agriculture with the "Innovative Farming - Hydroponics" project, understanding how plants grow without soil using nutrient-rich water. This engaging activity highlighted sustainable farming solutions, technology's role in agriculture, and solutions for future food challenges.

Grade IV: Students explored electronics through circuit simulations with Tinkercad and built wireless control systems using relays and IR sensors. This experience reinforced foundational concepts in electrical engineering, emphasising practical applications of wireless technology.

Grade V: Students embarked on the "Wireless Power Transmission" project by experimenting with a Tesla coil, learning how electricity can be transmitted without wires. They gained insights into electromagnetic fields, resonant inductive coupling, and Nikola Tesla's revolutionary work.

Grade VI: Through the "Faraday's Flashlight" project, students converted mechanical motion into electrical energy, exploring electromagnetism and Michael Faraday's innovative principles. They learned about sustainable ways to generate power without batteries.

Grade VII: Students investigated sustainable energy solutions in the "Piezoelectric Energy Harvesting" project, converting mechanical pressure into electrical energy. This interactive experience emphasised renewable energy sources and practical applications of energy harvesting.

Grade VIII: In the spirit of environmental care,

IKIGAI

students designed an "Automated Water Dispenser for Birds and Pets", utilising sensor technology for automated water distribution. This activity combined engineering, innovation, and environmental responsibility, highlighting practical applications of automation.

Reflecting on these innovative projects, June was truly a month of meaningful STEM learning. Our young innovators have developed critical thinking, collaboration, and creativity skills that will serve them well beyond the classroom. We look forward to continued exploration and growth in the months ahead.

World Environment Day - A Celebration of Awareness, Action and Responsibility

To mark World Environment Day, Ryan International Academy, Hinjawadi organised a vibrant series of activities across all grades on 5th June 2025. The objective was to foster environmental awareness, encourage sustainable practices, and empower students to take active responsibility for their surroundings.

The day began with a special assembly where students from Grade I & II presented interesting facts about the environment, Grades III to V delivered a powerful skit on environmental protection, and students from Grades VI to IX captivated the audience with a dynamic dance performance on an environment-themed song.

Hands-on eco-friendly activities followed throughout the day. Students of Grade I & II designed newspaper bags with "Go Green" messages and nature-inspired decorations. Grades III to V engaged in a Dry Leaf Art activity, using fallen leaves to create beautiful nature scenes. Students from Grades VI to IX designed bookmarks incorporating inspirational quotes and messages about sustainability. Montessori to Grade IX students also participated in

IKIGAI

seed ball making using commonly found kitchen seeds, promoting afforestation in an accessible and engaging way.

In a remarkable act of civic responsibility, over 60 students from Grades III to IX participated in a large-scale cleanliness drive around the school. They collected 20 gunny bags of waste and undertook mosquito-prevention measures by spraying pesticides and adding oil to stagnant water under teacher supervision.

The day's activities not only built awareness but also inspired action and reflection. Through creativity, collaboration, and care, our students demonstrated that meaningful change begins with small, committed steps. The celebration stood as a testament to the power of young minds in protecting and preserving our planet.

Investiture Ceremony A Celebration of Leadership and Excellence

On 14th June 2025, Ryan International Academy, Hinjawadi, proudly hosted its first-ever Investiture Ceremony—an inspiring milestone in the school's journey towards fostering leadership and holistic growth among students. The event was conducted with great fervour and dignity, bringing together students, staff, dignitaries, and proud parents.

The ceremony marked the formal inauguration of the Student Parliament, with six core members from Grade IX and house representatives from Grades VI to VIII being entrusted with leadership roles. These young leaders pledged to uphold the values of integrity, discipline, and responsibility, setting a strong example for their peers.

Gracing the occasion were esteemed

IKIGAI

guests—Retired Superintendent of Police Mr. Dilip Khedkar, Police Inspector Mr. Hrushikesh Ghadage from Hinjawadi Police Station, and an Assistant Police Inspector from Khadak Police Station—who addressed the students and urged them to lead with honesty, respect, and courage.

A symbolic plantation drive commenced the ceremony, reinforcing the school's dedication to sustainability and environmental consciousness. Academic and co-curricular achievements were also honoured through the ASE Awards, recognising excellence in Academics, Sports, and Extra-Curricular activities. In addition, students who maintained over 90% attendance and achieved above 90% in both terms received the prestigious One Merit Badge, a testament to their perseverance and consistent dedication.

The Investiture Ceremony was a powerful celebration of values, vision, and student empowerment. As the newly elected parliament members take charge, they are poised to lead with confidence and humility—upholding the Ryan legacy of excellence in every stride.

Executive PTA Meeting: Strengthening the School-Parent Partnership

On 14th June 2025, Ryan International Academy, Hinjawadi hosted its first Executive Parents Teachers Association (EPTA) meeting of the academic year with great enthusiasm and collaborative spirit. The primary objective of the meeting was the selection of new executive members, and the atmosphere was filled with active participation from both parents and teachers. The session commenced with a warm welcome extended to all attendees, acknowledging their valuable role in the school's journey of continuous progress. The Principal, Ms. Sonika Kochhar Girotra,

IKIGAI

expressed her heartfelt appreciation for the commitment and involvement of the parent and teaching community in creating a nurturing and progressive educational environment.

Addressing the gathering as Chairperson of the EPTA, Ms. Girotra emphasised the crucial role the EPTA plays in shaping important decisions that affect both the school and its students. She announced that EPTA meetings would be held quarterly, with a formal notice issued 14 days in advance. She also highlighted the significance of active participation, noting that EPTA members serve as a vital bridge between the school and the wider parent community.

The meeting concluded on a positive note, with all members aligning on shared goals and a renewed commitment to cooperation throughout the academic year. As echoed by the school's belief: "When parents and teachers come together as partners, every child wins."

Beyond Breaking News – Young Jourknows Programme 2025

The "Beyond Breaking News" Young Journalist Programme at Ryan International Academy, Hinjawadi, culminated in an inspiring showcase on 21st June 2025, following an intensive week of training from 16th to 21st June. This enriching initiative offered students a hands-on, behind-the-scenes experience of the world of TV journalism.

Held at the Ryan TV Studio in Hinjawadi, Pune, the five-day programme equipped students with technical skills such as operating multi-camera setups, understanding lighting and lenses, and exploring concepts like framing and depth of field. They also gained experience in sound recording, video operation, and scripting for newscasts, all while being

IKIGAI

introduced to the importance of ethics in journalism.

Participants had the unique opportunity to conduct real TV interviews for a student-produced news bulletin, enhancing their communication and confidence. Additionally, students were trained in post-production using non-linear editing tools to craft professional-grade news stories.

The event was further enriched by interactive sessions with esteemed media experts Mr. Arun Saha and Mr. Sushrut Karpe, whose mentorship left a lasting impact on the budding journalists.

This transformative programme not only sharpened students' journalistic abilities but also nurtured a deeper appreciation for storytelling, critical thinking, and responsible media representation.

Ryan International Academy Hinjawadi Hosts Literary Conclave

On 28th June 2025, A vibrant celebration of language, creativity, and young talent marked the Literary Conclave 2025, proudly hosted by Ryan International Academy, Hinjawadi. The event welcomed enthusiastic participation from 19 esteemed schools across Hinjawadi and Pune, transforming the campus into a hub of literary brilliance and youthful expression.

The conclave brought together students from Montessori to Grade IX, engaging them in a wide range of competitions that tested their imagination, spontaneity, and oratory skills. From storytelling and elocution to dramatic performance and spelling challenges, every activity encouraged students to delve deeper into the beauty of language. The school choir opened the day with an uplifting Praise and Worship performance, setting a joyful tone

IKIGAI

for the festivities. Principal Ms. Sonika Kochhar Girotra officially launched the school's 15 Books Reading Campaign with a ceremonial flag-off, reinforcing the academy's commitment to literacy and intellectual growth.

An engaging interaction session with celebrated authors further inspired the students to explore the world of writing. Performances like the recitation of Shakespeare's "Seven Ages of Man" and a vibrant Thank You Dance by the choir group added colour and depth to the day's proceedings.

Ryan International Academy, Hinjawadi, emerged as the overall winner of the conclave, praised for its flawless organisation and outstanding student performances. Elpro International School and EURO CBSE School were awarded the runner-up positions for their commendable participation.

The event concluded on a high note, leaving behind lasting memories, enriched minds, and a renewed love for literature. With this resounding success, Ryan Hinjawadi has once again affirmed its role as a nurturing ground for future thinkers, speakers, and storytellers.

15 Books Reading Campaign 2025-26 Launched with Enthusiasm

Every year, Ryan International Academy, Hinjawadi proudly participates in the 15 Books Reading Campaign, an initiative designed to instil a lifelong love of reading among students. On 28th June 2025, the campaign was officially launched for the academic year with an inspiring flag-off ceremony, led by Principal Ms. Sonika Kochhar Girotra and Librarian Ms. Megha Madhavan.

As the campaign begins, Ryan International Academy looks forward to a year filled with imagination, exploration, and a joyful celebration of reading across the school community.

At Ryan International Academy, Hinjawadi, the safety and well-being of our students remain paramount. In line with our commitment to child protection, a comprehensive awareness session on the POCSO Act (Protection of Children from Sexual Offences) was conducted on 6th June 2025 for all teaching and non-teaching staff. This vital initiative was held under the guidance of the HSCP (Health, Safety, and Child Protection) department.

The session was led by Ms. A. Laksha from the Health Basix Department, who delivered a clear and practical overview of the POCSO Act. She highlighted key areas such as recognising early signs of abuse, understanding the importance of mandatory reporting, and following correct legal procedures when concerns arise. The session also emphasised the educator's role in creating a school environment where children feel safe, heard, and supported.

Through engaging and informative discussions, staff members were equipped with the knowledge, tools, and confidence to respond promptly and sensitively to any child protection issue.

This training marks a significant step in ensuring that every member of the Ryan community is prepared and empowered to uphold the highest standards of child safety, reinforcing our school's dedication to fostering a secure and nurturing space for all learners.

Health, Safety and Child Protection (HSCP) Practices

Bullying Awareness and Prevention Session Empowers Students

On 12th June 2025, Ryan International Academy, Hinjawadi conducted a meaningful and age-appropriate session on Bullying Awareness and Prevention for students of Grades III to IX. The initiative aimed to promote empathy, kindness, and the courage to stand up against unkind behaviour, reinforcing the importance of a safe and inclusive school environment.

The session was inaugurated by Principal Ms. Sonika Kochhar Girotra, who stressed the school's commitment to ensuring every student feels secure and respected. The programme was led by Ms. Palak Modi, a trained counsellor from Health Basix, and was thoughtfully delivered in two sessions tailored to the respective age groups.

In the first session for Grades III to V, children were introduced to the concepts of friendship, kindness, and the importance of speaking up. Using role plays, storytelling, and interactive activities, the message was clear and simple: Be a Buddy, Not a Bully.

The second session for Grades VI to IX delved into more complex issues such as verbal, social, and cyberbullying. Students discussed real-life scenarios, learned how to be *Upstanders* rather than bystanders, and gained valuable insights into digital responsibility and peer support.

A concluding Q&A session provided practical strategies for recognising, reporting, and addressing bullying. Students left empowered, informed, and ready to contribute to a safer and more compassionate school environment.

These sessions served as a vital reminder that every student's voice matters — and that together, we can build a community where kindness, respect, and support are the norm.

PARENT'S CORNER

Gratitude helps children grow by improving their emotional development, being courageous, and nurturing a positive outlook. Grateful children are happier, more optimistic, and have better social support. It helps them shift their focus from limitations to possibilities. Children who practice gratitude can navigate life's challenges with confidence and optimism. We, as parents and educators can teach them by demonstrating gratitude in our own lives.

We should actively appreciate children, while also acknowledging areas where we can learn and improve as a parent, allowing for continuous personal development and a stronger bond with them. We can appreciate small wins, milestones, everyday moments of joy by praising their efforts, and showing appreciation through gestures like hugs or quality time.

Life is rooted in new beginnings. Each stage we enter whether it be launching our career, starting a family or preparing for retirement, it requires reformation into fresh new versions of us along the way. We can't control every single thing our children encounter in their life, but can provide a soft cushion of support. As a parent, it's our job to help the kid learn to transition successfully through seasons of life and guide them through their own new beginnings.

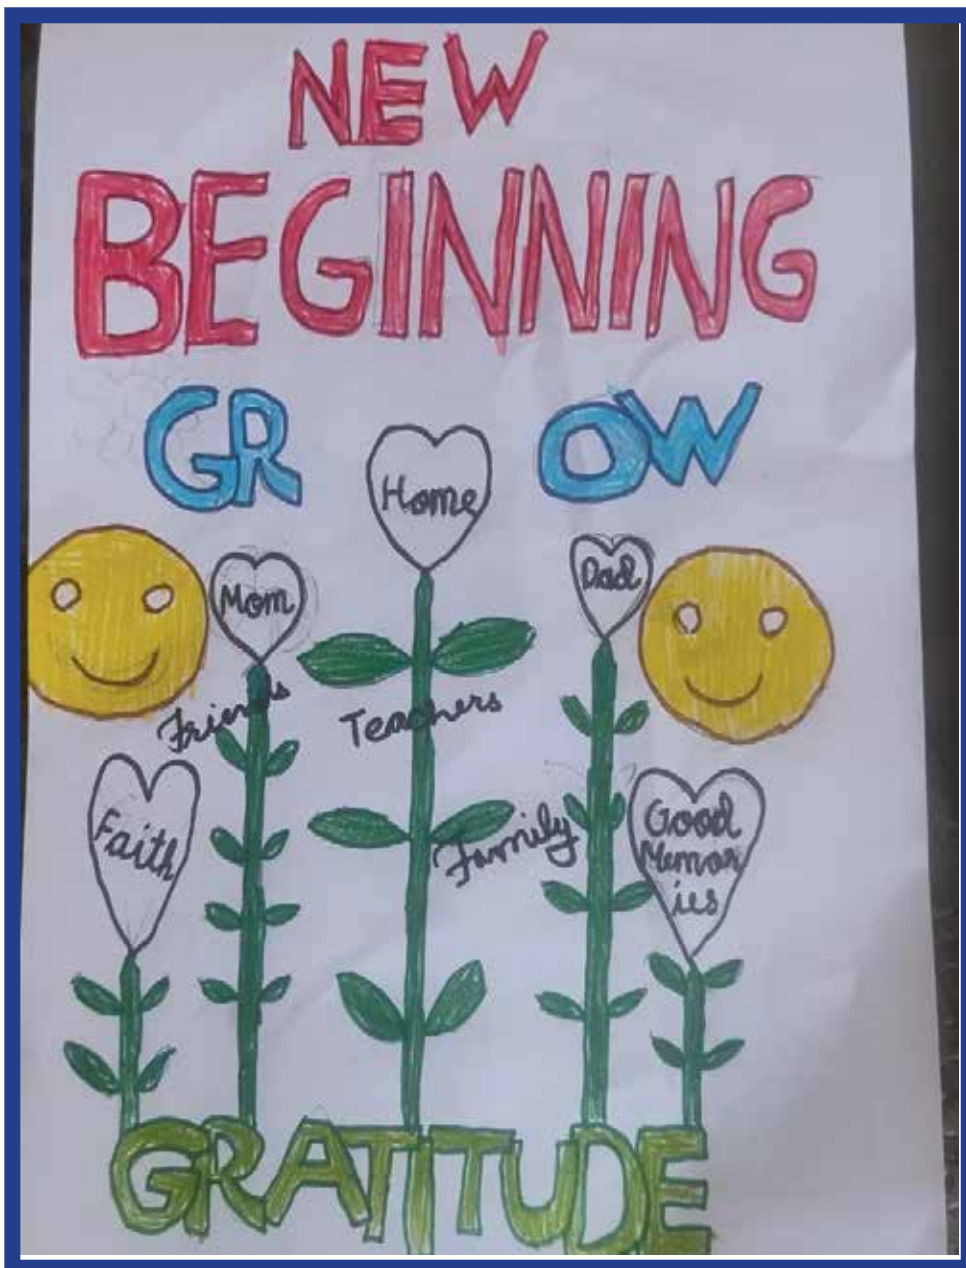

**- Ms. Hitanshi Gupta,
Parent of Naitik Gupta - Grade II 'C'**

Students Speak

Naitik Gupta, a talented Grade II 'C' student from Ryan International Academy, Hinjawadi, beautifully depicted gratitude, growth, and new beginnings in his artwork. His creation highlights the importance of appreciation, progress, and fresh opportunities. Well done, Naitik! Keep up the great work.

**- Naitik Gupta,
Grade II 'C'**

This stunning watercolour painting by our talented Art Teacher, Mr. Parmeshwar Chavan, beautifully captures the ethereal charm of an overcast sky above the majestic palace. His use of delicate brushwork and subtle contrasts evokes a calm yet dramatic mood. The artwork reflects both technical finesse and a deep emotional connection to the scene.

Upcoming Events

- National Doctors' Day
