

From the Principal's Desk

With gratitude to the Almighty, and under the inspiring vision of our Chairman, Dr. A. F. Pinto Sir, and Managing Director, Madam Grace Pinto, we continue to create a joyful and nurturing environment for our little Ryanites at Ryan International Academy, Magadi Road. July was a month of happy discoveries — from celebrating Doctor's Day with creative activities, wishing our CEO Sir on his birthday with innocence and love, to exploring nature during Environment Week. Each experience helped our Montessori children learn values of gratitude, care, and responsibility while enjoying their early years of schooling.

We thank you, dear parents, for placing your trust in us. Together, let us continue to guide our children as they grow with confidence, curiosity, and joy.

Quote of the month

Coming together is a beginning.
Keeping together is progress.
Working together is success."

– Henry Ford

ACTIVITY

National Doctor's Day Mont I to III

Ryan International Academy, Magadi celebrated National Doctors' Day on 1st July 2025 to honour the dedication and compassion of doctors who serve as real-life heroes in our society. The event was made special with the presence of Dr. Shridevi, a qualified medical professional and accomplished dancer, founder of Shree Clinic and Shree Kalanikethana dance academy.

Montessori students participated in a joyful Doctor's Kit Craft Activity, where they created Doctor's Kit. As they crafted, teachers spoke about the role of doctors in keeping people healthy, helping the little ones understand the importance of care, kindness, and good health practices.

The celebration concluded with a warm thanks to **Dr. Shridevi** for inspiring the children through her work in both medicine and the arts, leaving a lasting impression on young Ryanites about service and compassion.

EVENTS

CEO Ryan Sir's Birthday Celebration - Mont I to III

Ryan International Academy, Magadi celebrated the birthday of our esteemed **CEO, Mr. Ryan Pinto Sir**, on 8th July 2025 with joy and admiration. Montessori students participated in a **special video message activity**, where they shared warm and cheerful birthday wishes for Ryan Sir.

The little ones, guided by their teachers, spoke a few heartfelt lines, expressing their happiness and love for their leader. Their innocent voices and bright smiles reflected genuine affection, making the celebration memorable.

The event fostered a sense of belonging and connection among the youngest Ryanites, leaving them proud to be part of the Ryan family.

Environmental Week Mont I to III

Ryan International Academy, Magadi observed **Environment Week** from **8th to 12th July 2025** with the aim of fostering a sense of responsibility and care for the planet. The event was highlighted by an inspiring **guest talk by Ms. Deepa Nagaraj**, who addressed students on the importance of environmental conservation and sustainable living.

As part of **Environment Week** celebrations, the Montessori students of **Ryan International Academy, Magadi** participated in a delightful **Leaf Printing Activity**. The little Ryanites explored the beauty of nature by dipping fresh leaves in bright paints and pressing them onto paper to create colourful, nature-inspired prints.

EVENTS

While doing the activity, teachers engaged the children in conversations about the importance of trees, how they provide oxygen, shade, and shelter, and why it is our duty to protect them. The vibrant prints made by the students were displayed in the classroom, filling the space with creativity and a green message.

In addition, a special **Flower Plantation Drive** was undertaken by the staff, adding vibrant blooms to the school campus and symbolising the commitment to a greener future. The week's activities inspired the entire school community to take small but impactful steps towards protecting the environment.

Glorius Green Day Mont I to III

Ryan International Academy, Magadi celebrated **Glorious Green Day** with the Montessori students to emphasise the beauty of the colour green and its close link to nature. The classrooms buzzed with excitement as each level engaged in fun, creative, and nature-inspired activities.

Mont I children enjoyed a **Caterpillar Colouring Activity**, colouring a cheerful caterpillar in bright green shades while learning about the creature's place in the natural world.

Mont II participated in a **Leaf Colouring Activity**, where they coloured outlined leaves in fresh green tones and also made an adorable caterpillar-on-a-leaf drawing using the outline of their own hand, adding a personal touch to their art.

EVENTS

Mont III took part in a **Leaf Printing Activity**, where real leaves were dipped in paint and pressed onto paper to create colourful prints. These prints were arranged to form the wings of a butterfly, blending art with nature in a unique way.

The celebration strengthened colour recognition, enhanced fine motor skills, and deepened children's love for the environment. The vibrant displays of their work brought a fresh green charm to the classrooms.

CO-SCHOLASTIC ACTIVITIES

Dance

Dance is not just about steps; it is a beautiful way for children to develop rhythm, creativity, and confidence. Our students have been actively learning dance, and each month brought new skills and experiences.

Rhythm and Basic Movements - Mont I

Students were introduced to the world of dance through simple **rhythmic exercises and body movements**. They learnt how to move in time with music, maintain posture, and enjoy expressing themselves freely. This foundation helped them build balance and coordination.

Coordination and Teamwork - Mont II

The focus was on **synchronization and group practice**. Students discovered how important it is to observe each other, stay in rhythm, and move as a team. This not only improved their dance coordination but also instilled values of **discipline, cooperation, and teamwork**.

Expression and Stage Confidence - Mont III

The emphasized **expressions and performance skills**. Students learnt how to use gestures,

CO-SCHOLASTIC ACTIVITIES

emotions, and stage presence to make their dance more meaningful. Performing in front of peers boosted their **self-confidence and expressive abilities**.

Through this dance learning, students gained much more than steps and moves. They developed **rhythm, coordination, teamwork, expression, and confidence**—skills that will help them both on and off the stage. Dance has truly become a joyful medium of growth and creativity for our young learners.

Music

For Montessori children, I introduced and practiced the song “You Are My Sunshine” song and Practiced We shall overcome song. Additionally, I conducted rhythm exercises by demonstrating with percussion instruments.

These activities helped the children enjoy singing, explore musical sounds, and begin developing a sense of rhythm through interactive practice.

Physical Education

Journey of the Students in Physical Education of Montessori classes.....

In their Physical Education classes, the Montessori students have explored a variety of games and activities. They practiced locomotor skills such as running, jumping, hopping, and balancing, which improved their coordination and body control.

The activities also encouraged focus, concentration, and agility, helping the children become more attentive and confident in their

CO-SCHOLASTIC ACTIVITIES

movements. With each session, they strengthened their physical abilities and developed better body awareness.

This journey has nurtured their individual growth, building both fitness and confidence, while instilling in them the joy of movement and active participation.

Innovation Lab

The month of **July 2025** was an exciting journey for our Montessori children at **Ryan International Academy, Magadi**. Their learning began with an **orientation in the STEAM Lab**, where the little ones explored the environment and were introduced to basic STEAM concepts in a fun way. They participated in a creative activity on **Healthy and Unhealthy Foods**, where they sorted pictures and learned to make wise food choices, understanding the importance of nutrition. Another hands-on session, **Fun with Numbers**, engaged them with coins to compare values, identify greater and smaller numbers, and strengthen early math skills. These activities not only enhanced their observation and problem-solving abilities but also built strong foundations in healthy living and number sense. The month was filled with joyful exploration, active participation, and meaningful learning experiences.

Farm Animals - Mont I

Our little learners had an exciting and hands-on session where they explored the uses of farm animals! We introduced the topic using real items such as eggs, honey, wool, and milk to help the children connect with the learning in a fun and interactive way.

CO-SCHOLASTIC ACTIVITIES

The children were thrilled to touch and see these items up close, and they enthusiastically learned how farm animals like hens, bees, sheep, and cows help us in our daily lives. Through stories, discussions, and hands-on activities, they discovered that animals not only live on farms but also give us important products that keep us healthy and happy.

The children asked thoughtful questions and actively participated in identifying which animal gives which product. It was heartwarming to see their curiosity and excitement grow throughout the session!

STAR OF THE WEEK

At our school, we believe in celebrating every child's unique talents, efforts, and achievements. To encourage students and appreciate their hard work, we have introduced the "Star of the Week" recognition. Each week, one student is chosen who has shown outstanding qualities such as kindness, responsibility, creativity, discipline, or academic excellence.

Fostering Creative Thinking Through Celebrations

Doctors Day Celebration: Highlighted the vital role doctors play in society, their dedication to healing and the importance of respecting and appreciating their work. Children were inforced to do craft activity making doctors kit and showed the equipment used by doctors like stethoscope, injection, first aid etc and explained their uses and importance

Green Day: Highlighted the importance of nature . Emphasis the colour green's connecting to life, plants and healthy planets, encouraging students to appreciate and protect nature and displayed green objects, children were inforced to do palm tracing to do beautiful leaf and caterpillar and colour the pictures using two different shades of green.

Your clear communication really helped me understand the concept, the key ideas and structured lesson. At Ryan international academy.

**-Ms. Kokila,
Teacher - Mont II 'A'**

PARENT'S CORNER

I'm indeed delighted to say that my child Ihaan Sreenath is a proud Ryanite. The school's curriculum is thoughtfully structured to provide a balanced focus on academics, extracurricular activities, and character development. It follows a progressive approach, integrating both traditional learning methods and modern teaching practices to cater to different learning styles. The facilities are well-maintained and conducive to learning. Classrooms are spacious and equipped. Art studios, and activity halls further support students' physical, creative, and social development. Over time, there has been noticeable improvement in students' academic performance, communication skills, and confidence. Participation in school competitions and cultural events has helped them grow into well-rounded individuals. Teachers play a vital role in this progress through their dedication, personalized guidance, and encouragement of independent thinking. My kid genuinely love the school environment, often feeling disappointed when they have to miss a day, as they do not want to be absent from the engaging learning and activities.
