

From the Principal's Desk

The month of **September at Ryan International Academy, Magadi Road** has been filled with smiles, colours, and joyful learning for our Montessori students. Each event—from *National Nutrition Week* to Orange Day—was thoughtfully designed to make learning meaningful and fun. Our little ones enjoyed dressing up as fruits and vegetables, identifying colours, and engaging in hands-on art activities that built their **fine motor skills, creativity, and self-expression**.

Through Co-Scholastic sessions in **music, dance, innovation lab, and physical education**, children developed **listening, rhythm, balance, coordination, and teamwork** skills. Storytelling and group discussions helped them strengthen language and communication abilities, while simple classroom routines encouraged **independence and responsibility**.

It is heartwarming to watch our Montessori learners grow in confidence, curiosity, and kindness each day. My heartfelt gratitude to our teachers for their commitment and to our parents for their continued support. Together, we are nurturing young minds to learn joyfully, think creatively, and build a strong foundation for lifelong learning.

”

Quote of the month

“Coming together is a beginning.
Keeping together is progress.
Working together is success.”

– Henry Ford

The Value of the month is Integrity

Integrity a quality that forms the foundation of good character and true leadership. Integrity means being honest, doing what is right, and standing by one's principles even when no one is watching.

ACTIVITY

National Nutrition Week

Montessori students celebrated National Nutrition Week with great excitement and joy. The tiny Ryanites dressed up as their favourite fruits and vegetables, transforming the school into a lively garden of colours. Each child confidently introduced themselves as the fruit or vegetable they represented, sharing a few lines about its health benefits. Teachers explained the importance of eating nutritious food and maintaining a balanced diet through songs, stories, and interactive discussions. This activity helped the little ones understand the value of healthy eating habits, encouraged self-expression, and boosted their confidence in public speaking. The day was filled with laughter, learning, and the joy of celebrating good health.

Teacher's Day

Teacher's Day was celebrated with love and admiration by the Montessori students. The little ones expressed their gratitude to their teachers through handmade cards, flowers, and affectionate messages. Their innocent words and warm gestures brought smiles to every teacher's face. The teachers, in turn, appreciated the children for their effort and creativity. The day reflected the strong bond shared between teachers and students and reminded everyone of the value of respect, care, and appreciation in education.

Orange Day

Orange Day was celebrated with immense enthusiasm in the Montessori classrooms. The children and teachers came dressed in vibrant shades of orange, making the environment cheerful and bright. The classrooms were

ACTIVITY

beautifully decorated with orange balloons and craft displays, creating a lively theme. Children participated in creative art activities such as **Earbud Painting - Mont I, Paper Tearing Carrot Art - Mont II, and Fork Printing Lions - Mont III**, which helped them enhance their fine motor skills and artistic abilities. Through discussions, they learned to identify objects that are orange in color, such as oranges, carrots, pumpkins, and goldfish. The celebration made learning fun and meaningful while encouraging color recognition and creativity.

CO-SCHOLASTIC ACTIVITIES

Dance - Mont III

Our little Montessori stars at **Ryan International Academy, Magadi**, were filled with excitement during their dance sessions. With bright smiles and lively steps, the children enjoyed learning simple movements set to rhythmic music. Each session helped them improve balance, coordination, and focus while expressing emotions through dance. The joy on their faces reflected their growing confidence and love for movement. Activities like these not only enhance physical development but also nurture creativity, teamwork, and self-expression. It was heartwarming to see our tiny Ryanites move gracefully and enjoy every beat!

Music - Mont III

Music time was filled with joy and energy this month. Children began each class with simple vocal warm-up exercises that helped them

CO-SCHOLASTIC ACTIVITIES

improve their voice, pronunciation, and confidence while singing. They happily learned the songs *"Thank You God"* and *"God's Love"*, singing together with actions and smiles. Through these songs, children expressed gratitude, love, and care in a fun way. The sessions encouraged them to listen carefully, follow rhythm, and sing in tune. These musical activities also supported language development and group coordination. It was heartwarming to see every child actively participate and enjoy the music sessions with excitement.

Physical Education - Mont II

Students of Montessori actively participated in fun and engaging Physical Education activities during September. The activities were aimed at developing motor skills, coordination, balance, and teamwork through playful exercises.

Activities conducted:

- 1. Rolling the Ball:** Improved hand control, focus, and coordination.
- 2. Gorilla Walk:** Enhanced strength, balance, and body coordination through fun animal movements.
- 3. Reach and Gather:** Encouraged alertness, quick movements, and agility.
- 4. Ring Circus:** Developed hand-eye coordination and accuracy.
- 5. Passing the Ball:** Promoted teamwork, communication, and cooperation.
- 6. Treasure Hunt:** Fostered observation, curiosity, and problem-solving skills.

The children enjoyed every activity with great enthusiasm, making learning through play an exciting experience throughout the month.

CO-SCHOLASTIC ACTIVITIES

Innovation Lab - Mont III

During September, Montessori students participated in a variety of engaging hands-on activities designed to build foundational mathematical and cognitive skills. Through the activity *Find Patterns and Extend*, children explored shapes and arranged them in sequences, enhancing their logical reasoning and pattern recognition. In *Shape Sorting*, they identified and grouped shapes based on their attributes, which improved their classification skills. The activity *How Many? Let's Add* introduced addition through colorful thermocol balls, making number operations fun and visual. Lastly, in *Shapes In and Out*, learners experimented with fitting different shapes into one another, relating the concept to real-life situations like packing and organizing. These activities together fostered fine motor skills, observation, and critical thinking while creating an enjoyable learning environment.

ACADEMIC ACTIVITIES

Concept of Whole and Half Mont I

To introduce the idea of whole and half, teachers used fruit cutouts (like an apple, orange, banana, and watermelon).

First, show the children a whole fruit cutout and explain: "This is one whole fruit. It is complete."

Then, cut the same fruit cutout into two equal parts and explain: "When we divide the fruit into two equal parts, we get halves."

ACADEMIC ACTIVITIES

Two halves make one whole.”

Children can match two halves to make one whole or identify whether a given cutout is a half or a whole.

This can be extended into a hands-on activity where children sort/match fruit cutouts into two baskets labeled ‘Whole’ and ‘Half’.

Learning Objective

- To enable children to understand the concept of whole and half concretely and visually.
- To develop observation and classification skills through hands-on activity.
- To encourage mathematical thinking by recognizing equal parts and wholes.

Learning Outcome

- Children will be able to differentiate between whole and half fruit cutouts.
- Children will understand that two halves together make one whole. Children will be able to classify and segregate objects based on their form (whole or half).
- Children will develop basic pre-fraction skills needed for higher mathematical learning.

Identifying Pet Animals - Mont I ‘A’

1. Show children the animal cut-outs.
2. Ask them to identify which animals are pets.
3. Children will select only pet animals (dog, cat, parrot)
4. They will stick the pet animals inside the pet house on the chart.
5. Non-pet animals will be kept aside.

Learning Outcomes:

- Helps children differentiate pet animals from wild/farm animals.
- Builds observation and decision-making skills.
- Improves fine motor skills (pasting).
- Makes learning fun and interactive.

ACADEMIC ACTIVITIES

Sorting Real Rruits and Vegetables - Mont III 'A'

Students are presented with a mix of real fruits and vegetables, images, or flashcards.

They are asked to sort the items into two groups: fruits and vegetables.

Learning Objective:

- To help students identify and categorize fruits and vegetables.
- To develop observation and classification skills based on physical characteristics.
- To encourage vocabulary development related to food and healthy eating.

Learning Outcomes:

By the end of the activity, students will be able to:

- Differentiate between fruits and vegetables based on learned characteristics.
- Classify items correctly into the fruit or vegetable category.
- Name at least 3 fruits and 3 vegetables confidently.

STAR OF THE WEEK

At our school, we believe in celebrating every child's unique talents, efforts, and achievements. To encourage students to appreciate their hard work, we have introduced the "Star of the Week" recognition.

The objective of this programme is to recognize and celebrate the uniqueness of each student. The identified child's name and other details are displayed outside the class and the parents are given an opportunity to spend time with the child's classmates. During this time, the parents share information about their child and enjoy interacting with the other students of the class.

- Shivin Sai

Mont III 'A'

- Jasmika
- Ithaan
- Itharth
- Kushi

The month of **September at Ryan International Academy, Magadi Road** was filled with creativity, learning, and value-based exploration. Each activity reflected the spirit of our school — nurturing curiosity, compassion, and confidence in every learner. As educators, it was heartening to witness students eagerly participate in Innovation Lab projects, Nutrition Week celebrations, and cultural observances like Hindi Diwas and Teacher's Day. Through every lesson and hands-on task, children displayed enthusiasm, teamwork, and originality. The activities conducted across grades helped bridge classroom learning with real-world understanding — whether it was identifying healthy food choices, exploring magnetism, constructing truss bridges, or writing heartfelt letters and essays. These moments of discovery reminded us that teaching is not just about imparting knowledge but igniting a lifelong love for learning.

Integrity, the **value of the month**, was beautifully reflected in students' honesty and sincerity during collaborative projects and competitions. It was a joy to see young Ryanites demonstrating not only academic excellence but also moral strength and empathy in their daily conduct.

As teachers, we take immense pride in being part of this journey — guiding, inspiring, and learning alongside our students. The month concluded with gratitude and a renewed sense of purpose to continue shaping bright minds and compassionate hearts for a better tomorrow.

Teacher - Mont II 'B'**

PARENT'S CORNER

I am very happy to see my child enjoy school so much at **Ryan International Academy, Magadi Road**. In September, my child had a great time dressing up as a fruit for *Nutrition Week* and learned about eating healthy food. The *Orange Day Celebration* was also very nice, and my child was so excited to show the art done in class.

I really thank the teachers for making learning so much fun. My child talks about school every day with a big smile. I can see how much love, care, and effort the teachers put into every activity.

**- Ms. Pushpalatha,
Parent of Verusha R - Mont II 'A'**

Upcoming Events

- International Day for The Elderly (Grandparent's Day)
- Gandhi Jayanti
- World Space Week
- Indian Air Force Day
- World Students Day
- Global Hand Wash Day
- Wonderful White Day
- Diwali Activities
