

From the Principal's Desk

It gives me immense happiness to see our children participating so enthusiastically in every learning opportunity. The month of July was filled with meaningful experiences through National Doctor's Day, Ryan Pinto Sir's Birthday Celebration, National Parent's Day, academic activities, special assemblies, sports, music, dance, and Innovation Academy sessions. Their enthusiasm, creativity, confidence, and curiosity truly reflect the joyful learning environment we strive to create at Ryan.

Our teachers have worked with great dedication to plan engaging and purposeful experiences that encourage children to learn beyond the classroom. From hands-on academic activities and innovative learning to futsal, music, dance, and special assemblies, every experience has helped our students develop important skills such as teamwork, communication, creativity, confidence, and determination.

I would also like to congratulate our students for their wonderful achievements in interschool competitions. Their dedication, perseverance, and confidence make us immensely proud. I sincerely appreciate our teachers for their continued efforts and our parents for their constant support and encouragement.

We look forward to many more months of enriching experiences, joyful learning, meaningful achievements, and holistic growth for all our young Ryanites.

Quote of the month

“Every day is a new opportunity to learn, grow, discover, and shine.”

The Value of the month - Determination

Determination means having the courage to keep trying, even when something feels difficult.

It teaches children not to give up when they face challenges or make mistakes. A determined child believes that practice and effort can lead to improvement. It encourages children to set goals and work patiently towards achieving them. **With determination, every challenge becomes an opportunity to learn, grow, and succeed.**

EVENTS

National Doctor's Day - Mont I to III

Our little learners celebrated National Doctor's Day with great excitement through the "I Am a Little Doctor" activity. The children dressed up as little doctors using doctor costumes and accessories such as toy stethoscopes and coats. They happily took part in the presentation and confidently spoke a few lines about how doctors help and care for people.

The activity gave children a simple and meaningful understanding of the important role doctors play in keeping us healthy and safe. It also encouraged them to speak in front of others and express their ideas clearly. Through this fun role-play experience, children developed confidence, communication skills, listening skills, and awareness about doctors and their work.

The cheerful participation of our little doctors made the celebration lively and memorable. It was a wonderful opportunity for them to learn, imagine, express, and enjoy learning through role play.

Birthday Celebration of CEO Ryan Pinto Sir Mont I to III

Our Montessori children joyfully celebrated the birthday of CEO Ryan Pinto Sir through a colourful Sponge Dabbing Competition. The children creatively used sponge dabbing to colour the number "50" with the caption "50 years of smiles with Ryan Schools."

The activity provided our little learners with an opportunity to explore colours, patterns, and creative expression in a fun and engaging way. As they carefully dabbed the colours onto their artwork, they developed their fine

EVENTS

motor skills, hand-eye coordination, concentration, and creativity.

The children participated with great excitement and enthusiasm, making the celebration bright and memorable. The activity beautifully combined creativity, celebration, and joyful learning, creating wonderful memories for our young Ryanites.

National Parent's Day Mont I to III

Our little learners celebrated National Parent's Day with a heartfelt "Thank You Mom and Dad" Thumb Print Art Bookmark Competition. The children used their tiny thumbprints to create colourful and creative bookmarks as a special token of love for their parents.

The activity gave children an opportunity to express their love, gratitude, and appreciation in a simple and creative way. As they created their bookmarks, they also developed their fine motor skills, hand-eye coordination, concentration, and creativity.

The children participated with great enthusiasm and enjoyed creating something special for their parents. This activity beautifully reminded them of the importance of loving, respecting, and being thankful to their parents.

Yellow Day - Mont I to III

Our little learners celebrated Yellow Day with great excitement and joy. The children came dressed in bright yellow and explored the colour through fun and engaging classroom activities. They identified and recognised different yellow objects around them, making the learning experience colourful and interactive.

The celebration helped children develop

EVENTS

colour recognition, observation, vocabulary, and creativity. It also encouraged them to participate confidently and enjoy learning through play and exploration.

The cheerful smiles, bright yellow outfits, and enthusiastic participation made Yellow Day a joyful and memorable celebration for our little Ryanites.

ACADEMIC ACTIVITIES

Mathematics Activity – Count the Dots and Match Mont II

Our young learners of Montessori II ‘A’ participated in an engaging “Count the Dots and Match with Numbers” activity. The children carefully counted the dots in each group and matched them with the corresponding numerals. This hands-on activity made number learning enjoyable while strengthening their counting skills, number recognition, observation, and concentration.

Through this activity, the children developed one-to-one correspondence and gained confidence in connecting quantities with numerals. The joyful learning experience encouraged them to explore numbers independently and accurately.

English Activity – Clay Moulding: Family Words & Name Formation - Mont III

Our young learners participated in an engaging Clay Moulding activity where they used clay

ACADEMIC ACTIVITIES

to form family-related words and create the letters of their names. This hands-on experience made language learning fun and meaningful while strengthening letter recognition, phonics, and fine motor skills.

Through this activity, children practised forming letters, explored family words, and improved their finger strength and hand-eye coordination. The creative learning experience also encouraged concentration, confidence, and active participation in the classroom.

Helpers at School - Mont II

The children of Montessori II participated in a thoughtful activity on Helpers at School. They created heartfelt thank-you cards to express their love, gratitude, and appreciation for the people who help and support them every day at school.

Through this activity, children learnt the importance of being thankful, showing kindness, and appreciating the efforts of others. The creative card-making experience also encouraged self-expression and helped develop their fine motor skills.

It was a beautiful learning experience that reminded our little ones that every helper plays an important role in making our school a happy and safe place.

General Awareness Activity – Pet Animals & Caring for Them - Mont II

The children of Montessori II participated in an engaging General Awareness activity on Pet Animals and How to Take Care of Them.

ACADEMIC ACTIVITIES

The children learnt about common pet animals and discussed the basic needs of pets, such as food, water, shelter, cleanliness, and love.

The activity helped children understand that pets are living beings that need care, kindness, and attention. Through this learning experience, children developed awareness about responsible pet care while also building their observation, communication, and caring skills.

The session encouraged our little learners to be kind and gentle towards animals and understand the importance of treating every living being with love and respect.

General Learning Activity – Outdoor Strokes Activity Mont I 'B'

The children of Montessori I 'B' participated in an enjoyable Outdoor Strokes Activity. The activity gave them an opportunity to practise different strokes through fun and guided movements in an open environment. This experience helped children develop their fine motor control, hand-eye coordination, concentration, and movement skills. The outdoor setting encouraged active participation and made learning a fun and refreshing experience.

ACADEMIC ACTIVITIES

Structured Physical Education - Mont I 'A'

Our young learners had a fun and energetic Structured Physical Education (PE) session featuring Parachute Play and Cone Planting. The children worked together to hold, lift, and move the parachute, developing coordination, rhythm, and teamwork while enjoying the activity.

During Cone Planting, children carefully moved around the activity area, picking and placing cones as guided by the teacher. This helped them practise balance, agility, hand-eye coordination, spatial awareness, and following instructions.

The session provided a joyful opportunity for children to stay active while developing important gross motor skills, concentration, confidence, and cooperative play.

Music - Mont I 'A'

Our little learners enjoyed a joyful Music and Movement session featuring the popular rhyme "Row, Row, Row Your Boat." The children sang along with enthusiasm while performing simple actions and movements that brought the song to life.

Through this engaging activity, children developed their rhythm, listening skills, memory, coordination, and sense of beat. The action-based singing also encouraged participation, confidence, and joyful expression, making music learning a fun and interactive experience.

ACADEMIC ACTIVITIES

Dance - Mont III 'A'

Our little learners enjoyed an exciting Dance and Movement session filled with energetic music beats. The children enthusiastically moved to the rhythm, following simple dance steps and expressing themselves through joyful movements.

The activity helped children develop rhythm, body coordination, balance, flexibility, and listening skills. It also encouraged confidence, creativity, and active participation while allowing them to enjoy the music and move freely in a fun and positive environment.

Innovation Academy Mont III

Our students participated in a series of exciting Innovation Lab activities that combined creativity, science, technology, and hands-on learning. Through Sci-Tech: Balancing Bird and Dragon Fly, they explored the concepts of centre of gravity, weight distribution, balance, and stability by building and observing models.

In the Light Up Birthday Card activity, students designed creative cards and connected simple electrical components to make an LED light up, developing their problem-solving and basic circuit-building skills. Through 3D Fun, they explored shapes such as the cube, sphere, cylinder, cone, and cuboid and connected them with real-life objects.

These engaging activities encouraged students to learn by doing, observe, experiment, think creatively, and solve problems, making their Innovation Lab experience both enjoyable and meaningful.

STAR OF THE WEEK

Our Star of the Week is a wonderful opportunity to celebrate and appreciate the children for their positive qualities, efforts, and achievements. Each week, a child is recognised for demonstrating qualities such as confidence, kindness, responsibility, determination, creativity, and active participation. This initiative encourages children to believe in themselves, appreciate their unique strengths, and inspire their classmates through their positive actions.

July was a happy and busy month for our little learners at Ryan International Academy, Magadi Road. It was wonderful to see the children participate with great excitement in Doctor's Day, Ryan Pinto Sir's Birthday Celebration, Parent's Day, and Yellow Day.

The children also enjoyed Maths, English, General Awareness, Music, Dance, Physical Education, and Innovation Academy activities. These activities helped them learn through play, improve their skills, and become more confident and independent.

As teachers, we are happy to see our children learning new things, making friends, sharing, participating, and enjoying every moment. Their smiles and enthusiasm make every day special.

We thank our parents for their constant support and encouragement. We look forward to creating many more happy learning experiences for our little ones.

**- Ms. Priyanka,
Teacher - Mont I 'A'**

PARENT'S CORNER

As a parent, it was wonderful to see my child enjoy the activities conducted at Ryan International Academy, Magadi Road. My child happily participated in Doctor's Day, Yellow Day, Parent's Day, Music, Dance, Physical Education, and other classroom activities.

I am happy to see my child learning new things through fun and practical activities. These experiences are helping my child become more confident, active, creative, and caring.

I thank the teachers for making learning enjoyable and giving our children so many opportunities to explore and learn.

I am proud to see my child learn, smile, and grow every day!

**- Mr. Nithesh Kumar,
Parent of Pashyath - Mont I 'A'**
