

RYAN
INTERNATIONAL ACADEMY

 **SCHOOL**
Connect **July 2026**
Grades I to VI

From the Principal's Desk

It gives me immense happiness to see our children participating so enthusiastically in every learning opportunity. The month of July was filled with meaningful experiences through National Doctor's Day, Ryan Pinto Sir's Birthday Celebration, National Parent's Day, academic activities, special assemblies, sports, music, dance, and Innovation Academy sessions. Their enthusiasm, creativity, confidence, and curiosity truly reflect the joyful learning environment we strive to create at Ryan.

Our teachers have worked with great dedication to plan engaging and purposeful experiences that encourage children to learn beyond the classroom. From hands-on academic activities and innovative learning to futsal, music, dance, and special assemblies, every experience has helped our students develop important skills such as teamwork, communication, creativity, confidence, and determination.

I would also like to congratulate our students for their wonderful achievements in interschool competitions. Their dedication, perseverance, and confidence make us immensely proud. I sincerely appreciate our teachers for their continued efforts and our parents for their constant support and encouragement.

We look forward to many more months of enriching experiences, joyful learning, meaningful achievements, and holistic growth for all our young Ryanites.

Quote of the month

***“Every day is a
new opportunity to learn,
grow, discover, and shine.”***

The Value of the month - Determination

Determination means having the courage to keep trying, even when something feels difficult. It teaches children not to give up when they face challenges or make mistakes. A determined child believes that practice and effort can lead to improvement. It encourages children to set goals and work patiently towards achieving them.

With determination, every challenge becomes an opportunity to learn, grow, and succeed.

EVENTS

National Doctor's Day Grades I to VI

The students of Grades I to VI celebrated **National Doctor's Day** through a range of engaging and meaningful activities that helped them understand and appreciate the valuable role of doctors in our lives. Students of Grade I & II participated in the **"Who is a Doctor?"** Show and Tell Competition, where they spoke about the work of doctors and how they help people. Their confident presentations reflected their growing communication and expression skills. Students of Grade III & IV explored their creativity through the **"How to Draw a Doctor"** activity, using their artistic abilities to create colourful representations of doctors. Students of Grade V & VI took a thoughtful approach by writing **"Letters to My Pediatrician,"** expressing appreciation and gratitude towards their doctors. Through these varied activities, students developed creativity, communication, confidence, and a deeper appreciation for the dedication and care provided by doctors.

Birthday Celebration of CEO Ryan Pinto Sir Grades I to VI

The students celebrated the birthday of **Ryan Pinto Sir** with enthusiasm, creativity, and heartfelt wishes. Grade I & II participated in the **"Happy Birthday Ryan Sir" Draw and Colour activity**, where they used colours and imagination to create cheerful birthday artwork. The activity gave young learners an opportunity to express their joy and creativity while joining in the celebration. Students of Grade III & IV participated in the **Storytelling Competition - "Ryan - A School That Changed My Life."** Through their short stories and speeches, students expressed their thoughts and perspectives creatively while developing confidence, communication, storytelling, and presentation skills. The celebrations provided a joyful platform for

EVENTS

students to showcase their talents while making the occasion meaningful and memorable.

National Parent's Day Grades I to VI

National Parent's Day was celebrated with activities that encouraged students to express their love, gratitude, and appreciation for their parents. Students of Grade I & II participated in the "Thank You Mom and Dad" Card Making Competition, creating colourful and thoughtful cards as a special expression of their feelings. Grade III & IV reflected on the importance of their parents through Paragraph Writing on "Why My Parents are Special," putting their thoughts and emotions into words. Students of Grade V & VI participated in the "Parents: My First Teachers" Speech Competition, highlighting the significant role parents play in guiding, supporting, and shaping their children. The activities encouraged students to recognise the love and guidance they receive from their parents while strengthening their creative expression, writing, speaking, and presentation skills. Overall, the celebration beautifully reinforced the values of love, gratitude, respect, and appreciation for parents.

ACADEMIC ACTIVITIES

Mathematics Activity - Learning Numbers Through Hands-On Fun Grade I 'B'

Our young mathematicians participated in an engaging **Mathematics activity** focused on understanding **number comparison and ascending order**. Using number cards, students actively explored the concepts of

ACADEMIC ACTIVITIES

greater than (>), less than (<), and equal to (=) by comparing different numbers and selecting the correct mathematical symbol. They also practised arranging numbers in **ascending order**, from the smallest to the largest. The hands-on activity encouraged students to think, compare, reason, and respond confidently. By learning through participation and visual representation, children strengthened their number sense and developed a better understanding of mathematical concepts in a fun and interactive classroom environment.

Science Activity - Learning Through Exploration Grade VI 'A'

Students participated in an engaging **hands-on Science activity** that encouraged them to learn through observation, exploration, and experimentation. The children gathered around the activity with great curiosity, carefully observing the demonstration and actively engaging with the learning process. The interactive experience gave them an opportunity to ask questions, make observations, and understand scientific ideas through practical learning rather than just textbooks. Such experiential activities help develop **curiosity, critical thinking, teamwork, and a scientific attitude** while making learning enjoyable and meaningful.

Home Science - Protein-Rich Poha Parfait - Grade V & VI

Students of **Grade III & IV** participated in an engaging **Home Science activity** where they learnt to prepare their own **protein-rich poha parfait**. The activity gave children an opportunity to explore healthy food choices while learning simple food preparation skills.

Through this hands-on experience, students

ACADEMIC ACTIVITIES

learnt about the importance of **nutrition, healthy ingredients, and balanced eating**. They enjoyed preparing their parfaits independently and took pride in creating a healthy and tasty dish. The activity made learning about food and nutrition **fun, practical, and meaningful**.

Revival of Lost Art - Kalamkari Mango Design Grade IV

Students participated in a creative “**Revival of Lost Art**” activity inspired by the traditional art of **Kalamkari**. They explored the beauty of this heritage art form by creating a colourful **mango design** using traditional-inspired patterns and detailing.

The activity helped students appreciate our rich cultural heritage while developing their **creativity, patience, concentration, and artistic skills**. Through this hands-on experience, children learnt that traditional art can be preserved and celebrated by bringing it into their own creative work.

Special Assembly - Exploring Words Through Fun and Learning

The students presented an engaging **Special Assembly on words and word relationships**, making language learning lively and interactive. Dressed in their colourful house uniforms, the children confidently came forward with word cards such as **CAR-STAR, CAT-HAT, SUN-RUN, and BOOK**, demonstrating their understanding of familiar words and their sounds.

The assembly provided a wonderful platform for students to **recognise words, identify similar sounds, improve pronunciation, and build vocabulary**. Their confident participation and clear presentation reflected their growing

EVENTS

communication skills and enthusiasm for learning.

Through this fun-filled presentation, the children experienced language learning beyond the classroom while developing **confidence, teamwork, listening skills, and stage presence.**

Skit – Value of the Month: Determination

Our students presented an inspiring skit on the **Value of the Month – “Determination.”** Through a simple and meaningful story, they showed how facing challenges with courage, practising patiently, and continuing to try can help us achieve our goals. The skit beautifully conveyed the message that **mistakes are a part of learning and giving up is never the answer.** The students’ confident performance highlighted the importance of **perseverance, self-belief, patience, and a positive attitude.** The presentation encouraged everyone to face challenges with determination and always keep trying.

CO-SCHOLASTIC ACTIVITIES

Physical Education Grade III ‘A’

Students of **Grade III ‘A’** participated enthusiastically in a **Futsal Practice** session as part of their Physical Education programme. The session focused on developing essential football skills such as **dribbling, passing, ball control, and movement on the field.**

Through guided drills and practice games, students learnt to work together, follow game rules, and make quick decisions while handling the ball. The session also helped improve their **agility, coordination, balance, stamina, teamwork, and sportsmanship.**

CO-SCHOLASTIC ACTIVITIES

The energetic practice session provided students with an enjoyable opportunity to sharpen their skills while building **confidence, discipline, and a positive team spirit.**

Music - Grade I 'A'

The students of **Grade I** participated in an energetic and joyful music session featuring the songs **"Waka Waka"** and **"Dreamers."** The children enthusiastically sang and moved along with the music, enjoying the rhythm and learning to coordinate their actions with the beats.

The activity helped develop their **sense of rhythm, listening skills, coordination, memory, and confidence.** It also encouraged teamwork and joyful self-expression, making the music session a lively and memorable learning experience.

Dance - Grade I 'A'

Our young learners participated in an energetic and joyful dance session, moving enthusiastically to lively music beats and following simple dance movements. The activity provided children with an opportunity to express themselves through movement while developing their **rhythm, coordination, balance, body control, and listening skills.** It also encouraged creativity, confidence, teamwork, and active participation, making the dance session a fun-filled and enriching learning experience.

Innovation Academy Grade VI 'A'

Students of **Grade IV** engaged in a series of exciting hands-on activities at the **Innovation Lab**, combining technology, mathematics, and practical learning. Through the **Wireless Notice Board** activity, students explored wireless communication, data transmission, electronics,

I liked learning through activities because they made my lessons more interesting and fun. I also enjoyed working with my friends and taking part in different events.

**- Varshini,
Grade VI**

Rashmeeka

Star of the Week

Every week, we celebrate a **"Star of the Week"** to recognize a student who has demonstrated outstanding behaviour, active participation, kindness, confidence, and a positive attitude towards learning. This appreciation motivates children to give their best and inspires their classmates to develop good habits and values. The recognition helps build self-confidence, encourages responsibility, and fosters a sense of achievement. Congratulations to our Star of the Week for being a wonderful role model and shining brightly through their enthusiasm and excellent efforts. Keep up the great work!

July was a vibrant month filled with **learning, creativity, celebrations, and achievements**. Our students enthusiastically participated in **National Doctor's Day, Ryan Pinto Sir's Birthday Celebration, and National Parent's Day**, expressing their creativity, gratitude, and confidence through various activities.

Academic activities in **Mathematics, Science, and Innovation Academy** provided hands-on learning experiences, while **Special Assembly, Music, Dance, and PE** helped students develop communication, creativity, coordination, teamwork, and confidence.

We are proud of the achievements of **Dhanesh in the Interschool Skating Competition** and **Rashmeeka in the Interschool Freestyle Dance Competition**. Their dedication and enthusiasm are truly commendable.

It was a pleasure to see our children **learn with curiosity, participate with enthusiasm, and grow with determination** throughout the month. We sincerely thank our parents for their continued support and encouragement.

- Ms. Malini,
Class Teacher - Grade III 'A'

PARENT'S CORNER

July has been a wonderful month filled with **learning, creativity, celebrations, and new experiences** for our children. As parents, it was heartwarming to see them participate enthusiastically in academic activities, special assemblies, sports, music, dance, and various celebrations.

The activities provided our children with opportunities to **learn beyond textbooks, build confidence, express themselves, and develop important life skills**. We are especially proud to see their determination and enthusiasm reflected in their achievements.

We sincerely appreciate the teachers and the school for creating such **engaging and meaningful learning experiences** for our children. We look forward to many more wonderful moments of learning and growth.

- Mr. Mahesh,
Parent of Yathvik - Grade III 'A'
