## From the Principal's Desk

### Fresh Beginnings: Unveiling the Journey of a New Academic Year

As we welcome another academic year, it is with great pleasure and anticipation that I write this to our students, parents, and faculty. "Fresh Beginnings" encapsulates the excitement and potential that come with the start of a new school year.

For students, this is a time to embrace new opportunities, set goals, and embark on a journey of discovery. It's a chance to build upon past accomplishments, challenge themselves, and explore their interests. Our dedicated faculty are prepared to guide and inspire them along the way, fostering a love for learning that extends beyond the classroom.

Parents, your support and involvement are invaluable as we navigate this journey together. Your encouragement and partnership in your child's education make a significant difference in their success. At our school, we are committed to providing a nurturing and enriching environment where every student can thrive. From exciting curriculum enhancements to engaging extracurricular activities, we strive to create a well-rounded educational experience that prepares students for the challenges and opportunities of the future.

As we unveil this new academic year, let us embrace the possibilities it holds. Let us approach each day with enthusiasm, determination, and a spirit of collaboration. Together, let's make this year one of growth, achievement, and memorable experiences.

Here's to fresh beginnings and a successful academic year ahead!

**- Ms. Sonika Kochhar Girotra,**  
**Principal, RIAH**

## Editorial Committee:

**Ms. Sonika Kochhar Girotra (Principal)**

**Ms. Kirti Ranjan (Middle School Coordinator)**

## “Quote of the month

*"Embrace the blank pages of a new academic year with excitement and curiosity. Each day holds the potential for new discoveries, friendships, and achievements. Let your journey be guided by resilience, fueled by curiosity, and illuminated by the pursuit of knowledge."*

”

This thought encourages individuals to approach the new academic year with enthusiasm and a sense of adventure. It suggests that each day presents growth opportunities, both academically and personally. By embracing challenges with resilience and maintaining a curious mindset, individuals can make the most of their educational journey, forging new connections, gaining new insights, and achieving their goals.

# Coordinator Speak

With the dawn of this fresh chapter, we anticipate a multitude of opportunities for growth, learning, and camaraderie.

As we stand on the threshold of this new beginning, it is natural to experience a blend of excitement and apprehension. However, let us approach this journey with confidence and resilience, knowing that we are capable of surmounting any challenges that may arise.

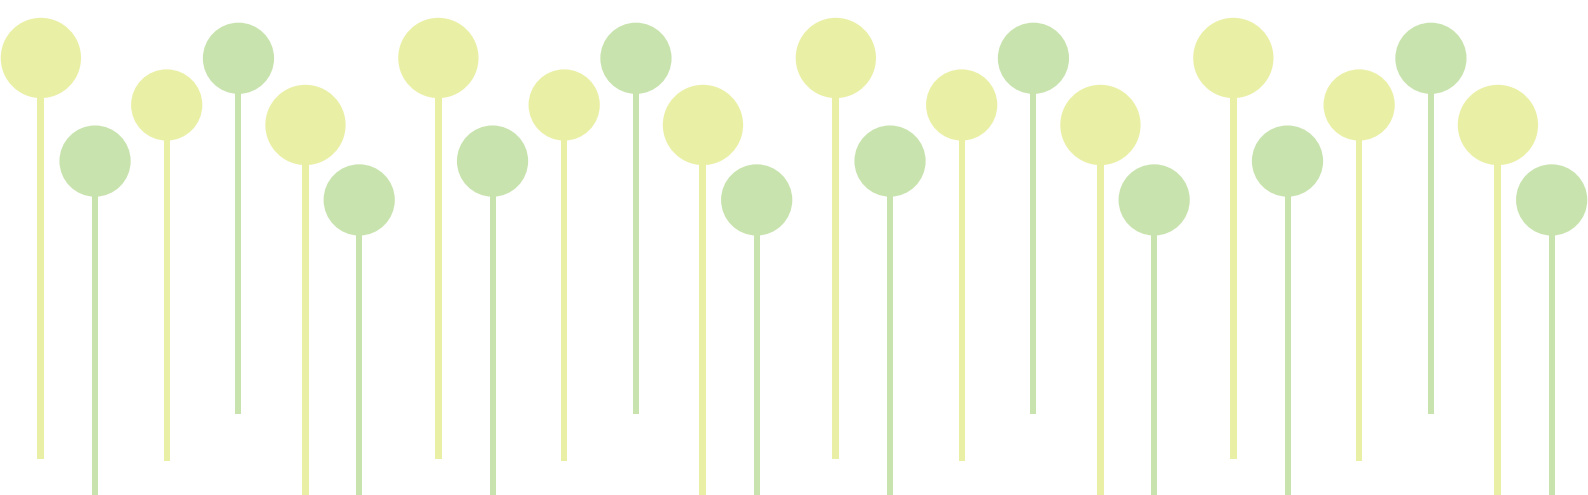

This is an opportune moment to set intentions, establish aspirations, and explore new avenues of personal and academic development. Whether it entails mastering a challenging subject, engaging in extracurricular pursuits, or extending kindness to others, let us embrace the myriad possibilities that lie ahead.

Undoubtedly, with the dawn of a new school year, a vast tapestry of opportunities unfurls before us, each thread woven with promise and potential. Parents, envision your child as a radiant beacon, illuminating the path towards these boundless opportunities, and guiding them with unwavering support and encouragement.

Together, let us cultivate an environment characterized by mutual support, enthusiasm, and a shared commitment to excellence. May this school year be marked by moments of joy, discovery, and academic achievement, leaving an indelible mark upon our collective memory.

So, here's to a new school year filled with laughter, learning, and all the wonderful moments!

**- Ms. Kirti Ranjan,  
Middle School Coordinator**

# Activities

## First Day in Primary

"Great teachers empathize with kids, respect them, and believe that each one has something special that can be built upon." With this quote resonating in our minds, we began the journey of the new academic year 2024-25 at Ryan International Academy Hinjawadi on 1st April, 2024.

We could see all the little Ryanites with sparkling eyes, ready to embark on the primary flight with great zeal and enthusiasm. Every child in the primary school exuded joy as they made their way to their new classes to embark on this enduring journey.

The first day in the primary was nothing short of a festive occasion for everyone. There was fun, laughter, excitement, and sharing abound. The day commenced with a special assembly presented by the teachers to warmly welcome the students. Following the assembly, the students hurried back to their classes to unwrap the day's activities.

The interaction session was crucial. It provided the teachers with an excellent opportunity to understand each student better. This was the best approach to help the overwhelmed students adjust and settle in. Once everyone was settled, they commenced their takeaway activity, which involved creating a photo frame. Each student was given an A4 sheet with a rectangle drawn in the center, which they had to decorate beautifully. It was thrilling to witness the students' creative work. However, more fulfilling was to see them enjoy themselves during the activity. The students had a blast on their first day of school.

**- Ms.Sarita Mohata,  
PRT**

## First Day of Middle School

Nelson Mandela once said, "Education is the most powerful weapon you can use to change the world."

With the sole aim of improving the lives of our students and ensuring holistic growth for each one

# Activities

of them on 1st April 2024, we, at Ryan International Academy, Hinjawadi, started our journey for the new academic session (2024 – 25).

As our students bloom right before our eyes from toddler to teen, we welcome our 8th graders with

love and pride in our hearts as we also get the opportunity to grow with them. This year with a bigger Middle School to welcome the teachers ensured to make the day memorable for all the students.

The school was abuzz with excitement and energy. The day started on a lovely note as the teachers presented the morning assembly and set the tone for the rest of the year. One of the key challenges of the first day of middle school is helping students adjust to the increased academic expectations and responsibilities that come with being in a new grade. Some students may feel overwhelmed by the new schedule, the heavier workload, and the higher expectations placed upon them. As educators, it is our job to help students navigate these challenges and provide them with the support and resources they need to succeed. Teachers made star cutouts, decorated them, and urged the students to use as bookmarks. Throughout the day the students were engrossed in different activities like writing a letter to their future selves, trying to overcome different challenges in Social Sciences, they participated in some hands-on activities in Science, etc. Hindi activities were equally fun and interesting, and Math activities like getting to know the dice, let's make a square were thoroughly enjoyed by the students.

Thus, it can be concluded by saying that the first day of middle school was just the beginning of a journey of growth, learning, and discovery that will last a lifetime.

**- Ms. Sankalita Majumder,  
TGT**

# Activities

## World Health Organization Day

On 8th April 2024, RIAH commemorated World Health Organization Day with a series of engaging activities promoting health and well-being among students.

Young artists in grade I and II showcased their creativity by drawing five fruits or vegetables in their school art files. Through vibrant colors and imaginative strokes, they learned about the importance of incorporating nutritious foods into their diets for a healthy lifestyle.

The students of grades III to V honed their calligraphy skills in a writing competition centered around the theme "My Health, My Right." Using an elegant script, they penned essays in the school activity scrapbook, emphasizing the importance of prioritizing health and well-being. Additionally, they pasted pictures of their favourite vegetables, reinforcing the connection between nutrition and overall health.

In grades VI to VIII, students participated in a poster-making competition under the theme "Building a Healthier World Together." Armed with creativity and awareness, they designed posters highlighting the significance of collective efforts in promoting health and wellness. Through their artistic expressions, they conveyed messages of unity, responsibility, and advocacy for a healthier world.

Through these activities, RIAH encouraged students to reflect on the importance of health and well-being, fostering a culture of mindfulness and empowerment. By engaging in creative expression and thoughtful discussions, students gained a deeper appreciation for the role they play in creating a healthier future for themselves and their communities.

# Activities

## Siblings Day

On 10th April 2024, RIAH celebrated Siblings Day with a competition designed to strengthen the bond between siblings. Students from different grade levels participated in activities tailored to their age groups.

In grade I and II, students engaged in a Sibling Cartoon Competition, creating sketches depicting the special bond between brothers and sisters. Their colourful and imaginative drawings showcased moments of love and companionship.

The students of grades III to V embraced the spirit of Siblings Day by crafting heartfelt cards for their siblings. With colourful paper and markers, they expressed their love and appreciation, fostering warmth and connection within the RIAH community.

Meanwhile, grades VI to VIII showcased their creativity in a Self-Composed Poem Writing and Recitation Competition. With the theme "My Sibling, My Strength," students penned heartfelt verses celebrating the support and resilience shared between siblings. Through these activities, RIAH underscored the importance of family and celebrated the unique bond between siblings, nurturing a sense of unity, love, and appreciation among students.

## World Heritage Day

On 18th April 2024, World Heritage Day was celebrated to raise awareness among students about preserving our heritage sites and also the efforts required to conserve and draw attention towards it. This day was celebrated through an Artistry-Palmistry Competition. Young Ryanites created different heritage sites, wonders of the world, and other heritage monuments on the canvas using their fingers and palms. Through this activity, they not only were sensitized towards the importance of protection and preservation of the heritage sites, but their minds found wings of creativity as well. The students of grade I & II made a monument they would like to preserve while the

## Activities

students of grade III and IV drew a historical monument of their choice, and grades V to VIII made a collage on the seven wonders of the world. The students enjoyed the activities of artistry and palmistry of famous monuments and participated wholeheartedly.

## Earth Day

On 22nd April 2024, RIAH celebrated Earth Day with a special activity aimed at raising awareness about environmental conservation and sustainability.

The students from grades I to VIII participated in an Earth Hour initiative, symbolizing their commitment to environmental stewardship. From 8:00 pm to 9:00 pm, they switched off all non-essential appliances and lights, embracing the darkness to illuminate the importance of energy conservation. During this hour, students engaged in eco-friendly activities such as candlelit storytelling, stargazing, or simply enjoying quiet moments with family and friends.

To commemorate their participation, students were encouraged to capture photos of their Earth Hour experience. These photos served as visual reminders of their dedication to preserving our planet's natural resources and mitigating climate change.

By observing Earth Hour, RIAH students demonstrated their solidarity with global efforts to protect the environment and promote sustainability. Through small yet meaningful actions, they affirmed their role as stewards of the Earth, committed to safeguarding its beauty and biodiversity for future generations.

## English Language Day

On 23rd April 2024, RIAH embraced the richness and beauty of the English language with a variety of engaging activities to celebrate English Language Day.

Young storytellers in grade I and II showcased their

## Activities

creativity in a storytelling competition. Using good adjectives and phrases, students crafted captivating stories inspired by the pictures provided. Through their imaginative narratives, they demonstrated their growing proficiency in language and storytelling skills.

In grade III and IV, the students embarked on a magical journey as they participated in a Fairy Tale Telling Competition. From a list of classical English fairy tales, they selected one to retell using props, masks, and toys. Through imaginative storytelling and creative enactment, students brought these timeless tales to life, captivating their audience with their flair for drama and language.

The students of grades V to VIII celebrated the magic of words in an Essay Writing Competition. Under the theme "The Magic of Words: Celebrating English Language Day," participants penned essays reflecting on the significance of the English language in their lives and the world. They explored the power of language to inspire, connect, and transform, highlighting its importance in communication, literature, and cultural exchange.

Through these activities, RIAH students not only honed their language skills but also gained a deeper appreciation for the richness and versatility of the English language. English Language Day provided an opportunity for students to express themselves creatively, explore literary traditions, and celebrate the universal language that unites us all.

## International Dance Day

On 26th April 2024, RIAH celebrated International Dance Day with an exhilarating Inter-House Dance Competition, showcasing the diverse talents and cultural expressions of its students.

Young talents of grade I and II participated in a Folk Art and Folk Song competition, immersing themselves in the rich heritage of traditional dance and music. With colourful costumes and rhythmic movements, students brought to life the vibrant

## Activities

spirit of folk culture, celebrating the beauty and diversity of our cultural traditions.

In grades III to V, the students explored the creative possibilities of dance using props such as sticks, ribbons, umbrellas, and hats. With imaginative choreography and synchronized movements, they infused their performances with energy and expression, captivating the audience with their dynamic and innovative routines.

The students of grades VI to VIII showcased their contemporary and hip-hop dance skills in a spirited competition. With sleek moves and urban flair, they mesmerized the audience with their agility, precision, and style, pushing the boundaries of dance and self-expression.

Throughout the day, the school resonated with the infectious rhythms and joyful expressions of dance, uniting students across grades and houses in a celebration of movement and creativity. The Inter-House Competition not only fostered healthy competition but also promoted teamwork, self-confidence, and cultural appreciation among students. As they danced their hearts out, they celebrated the universal language of dance that transcends boundaries and unites people from all walks of life.

## Community Service

Our focus for the community service project for the month of April was on the preservation of historical monuments under the theme "SAMRAKSHAN - PROTECTION OF HISTORICAL MONUMENTS." The students were actively engaged in creating awareness about the significance of preserving our cultural heritage. They embarked on visits to various historical sites around Pune, including iconic landmarks such as Shaniwar Wada, Aga Khan Palace, and Lal Mahal. Armed with cameras, they documented instances of neglect and human intervention, highlighting the urgent need for conservation efforts. Through this initiative, the students not only gained firsthand insights into the importance of historical preservation but also contributed to raising awareness within their communities. Their dedication and commitment to safeguarding our architectural legacy serve as a testament to their sense of responsibility and compassion towards our shared heritage.

**- Ms. Sifa Rahmania,  
Primary Coordinator**

# Special Assembly

## First Day Assembly

The sun glimmered over the gigantic walls of Ryan International Academy Hinjawadi. The new academic year was marked with some special acts on the first day of the Assembly which was presented by all the teachers. It was a great morning full of ecstasy and enthusiasm. Each teacher had the bliss of swaying the newbies with the lively and vivid performances. The entire day was enlightened in just a few minutes. The 'Praise and Worship' song was adored by the students and they danced with joy to it. An influential skit on the value of the month – Perseverance, included the attributes of real-life situations like diligence, hard work, dedication, and success, which bore the fact of moving on in the path of life whatever be there. In other words, it was based on the trail on which our life surges and encounters every trodden leaf, thorn, or any such thing resembling the difficulties or obstacles faced in life. Overall, the students enjoyed the play with great zest. Their appreciation marked the endeavour of the performers and made the day a happy one to behold.

- Ms. Pooja Sharma,  
PRT

## World Health Organization Day Assembly

On the occasion of World Health Organization (WHO) Day, RIAH organized a special assembly on 8th April 2024 to raise awareness about the importance of health and well-being. The assembly began with a powerful poem on healthy living and healthy food, emphasizing the significance of making healthy choices to lead a fulfilling life.

A student of grade II presented a wonderful poem on the importance of making healthy choices. A skit was also performed by students of grade VIII, showcasing the various roles and responsibilities of the WHO in addressing public health challenges, such as disease outbreaks, vaccination campaigns, and promoting healthy lifestyles. The skit illustrated how collaboration and cooperation among countries are essential to achieving the WHO's goal of ensuring health for all.

# Special Assembly

During the assembly, valuable information about the WHO was shared, highlighting its mission, functions, and key initiatives. Students learned about the WHO's efforts to combat major health issues, such as pandemics and non-communicable diseases, and the importance of global solidarity in overcoming these challenges.

The Principal, Sonika Ms., reiterated the theme of W.H.O. Day 2024 "My Health My Right" and shared the importance of prioritizing health and well-being in our daily lives. She emphasized on the significance of adopting healthy habits and making informed choices to maintain a balanced lifestyle. The students were encouraged to care for themselves as well as to contribute to building a healthier world.

Overall, the WHO Day assembly served as a reminder of the critical role that health plays in achieving sustainable development and fostering a more equitable and just society. It inspired students to become advocates for health and wellness, empowering them to make positive changes in their communities and beyond.

- Ms. Archana Tiwari,  
TGT

# Eid Special Assembly

The Eid special assembly on 10th April 2024 at RIAH was a resounding success, brimming with joy, excitement, and the spirit of togetherness. The students showcased their talents and shared their knowledge about the significance of Eid, creating a memorable event for all.

The assembly began with grade I and II students exuding immense enthusiasm as they presented a heartwarming poem dedicated to Eid. Their bright smiles and expressive recitation set a delightful tone for the event, capturing the essence of celebration.

Following the poetic opening, it was time for the talented students from grades III to V to shine. They

# Special Assembly

took the stage with confidence, mesmerizing the audience with a captivating dance performance choreographed to the beats of traditional Eid songs. Their synchronized movements and infectious energy filled the room with festive cheer.

Finally, the spotlight turned to the mature and eloquent students from grades VI to VIII. With poise and insight, they delivered thoughtful speeches on the significance of Eid. They delved into topics such as the importance of fasting during Ramadan, the virtue of giving to those in need, and the message of peace and harmony that Eid embodies. Their articulate presentations left a lasting impact on all the young Ryanites in attendance.

The commendable efforts and hard work of all the students in preparing for this special assembly were evident in their performances. Not only did they showcase their talents, but they also conveyed the true essence of Eid, spreading joy and goodwill.

Events like the Eid special assembly play a vital role in fostering cultural appreciation and diversity within the school community. They provide opportunities for students to learn about and respect each other's traditions and beliefs, creating a more inclusive learning environment for all. Through such experiences, RIAH continues to nurture a sense of unity and understanding among its students, celebrating diversity and promoting mutual respect.

**- Ms. Reema Kala,  
PRT- RIAH**

## Baisakhi Special Assembly

On 12th April 2024, Ryan International Academy Hinjawadi organized a vibrant Baishakhi special assembly, commemorating the harvest festival of India with a diverse array of performances and presentations.

A captivating poem presented by a student of grade II that eloquently captured the essence of the festival. The poem celebrated the vibrancy of springtime, the renewal of nature, and the joyous spirit of new beginnings that Baishakhi symbolizes. A highlight of the assembly was a mesmerizing dance performance by the students of grades VI to VIII. With their intricate footwork and expressive movements, the dancers brought to life the joy and camaraderie associated with Baishakhi, captivating the audience and instilling a sense of appreciation for our culture.

The Principal, Ms. Sonika emphasized on the significance of celebrating cultural events like Baishakhi within the school community. She highlighted how such assemblies provide

# Special Assembly

invaluable opportunities for students to learn about different cultures, fostering cross-cultural understanding, empathy, and respect.

The Baishakhi special assembly was a resounding success, bringing together everyone in a spirit of joy and celebration. Such events serve as reminders of the diversity and richness of our cultural tapestry, reinforcing the importance of embracing and celebrating our collective heritage.

- Ms. Archana Tiwari,  
TGT

# Special Assembly

## Classroom Activities- Science

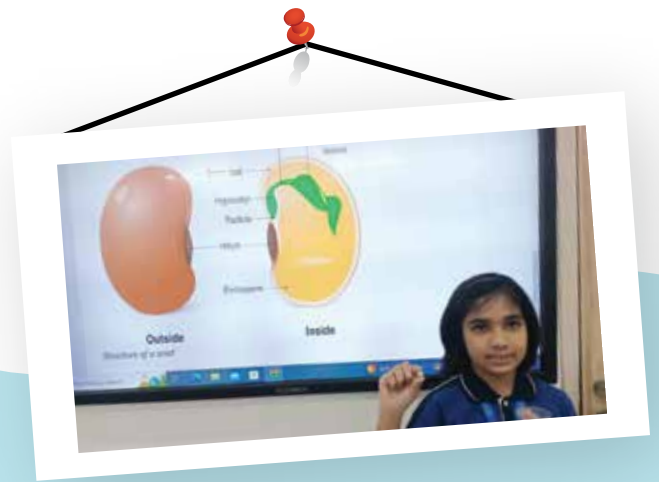

At RIAH, we strongly adhere to the belief that Science education should be grounded in activity and experiential learning. As we embrace the theme 'Fresh Beginnings: Unveiling the Journey of a New Academic Year,' we celebrate the spirit of exploration, curiosity, and growth that defines our educational voyage ahead.

Our activities at the beginning of the academic year seamlessly bridged previous experiences with new realms, fostering curiosity and a naturalist approach. Grade III students participated in a poster-making craft, where they showcased their understanding of plant parts, building upon their prior knowledge. Simultaneously, Grade IV students engaged in a captivating lab activity exploring stomata, laying the groundwork for a deeper study of photosynthesis and plant processes.

In grade V, our young scientists delved into the intriguing world of seed structure. Through hands-on exploration, they unraveled the intricate designs within seeds, gaining a deeper appreciation for nature's blueprint for new life. From studying protective coats to embryonic structures, their keen observations brought them closer to understanding the magic hidden within every seed. Grade VI scholars examined microscopic wonders, from the delicate intricacies of plant cells to the tiny organisms that dwell unseen in our world. Their discoveries illuminated the importance of microscopic study in unraveling the mysteries of life.

Grade VII students embarked on a captivating journey into the world of bread mold and its spore formation. Through careful observation and experimentation, they witnessed the remarkable process of fungal reproduction.

In Grade VIII, our budding chemists immersed themselves in the world of chemical reactions that surround us every day. Through engaging

# Special Assembly

experiments, they explored the phenomenon of yeast fermentation, observed the evolution of gases, and witnessed the mesmerizing transformation of colors. Their discoveries not only deepened their understanding of chemistry but also highlighted the beauty of science in action all around us. As we embark on this academic journey, we are committed to fostering a love for science through immersive, experiential learning opportunities that ignite curiosity and inspire discovery. Here's to a year filled with boundless learning and exciting discoveries!

## Classroom Activities- Environmental Studies

At RIAH, in the month of April, we had a series of engaging class activities aimed at reinforcing key concepts such as position words, shapes, and numbers. These activities were designed not only to inform but also to infuse enjoyment into the learning process, fostering a deeper understanding and appreciation for fundamental concepts among students.

### Grade I Activities:

**English Activity: Exploring Position Words in the Atrium** - In the vibrant school atrium, Grade I students embarked on an interactive journey to discover position words. Encouraged to describe their positions relative to various objects using words like "under," "over," "behind," and "in front of,"

students enthusiastically engaged in hands-on activities. From arranging themselves in different orders to identifying object positions, they honed their spatial reasoning skills while having a blast.

**Math Lab Adventures: Comparison of Sizes, Shapes, and Heights** - The Math lab buzzed with excitement as Grade I students delved into real-life situations to compare sizes, shapes, and heights. With critical thinking at the forefront, they investigated and analyzed surrounding objects. From comparing student heights to categorizing shapes and sizes, the Math lab became a vibrant workshop of exploration and discovery, fostering a deeper understanding of these concepts in their immediate environment.

### Grade II Activity:

**Mastering Numbers Up to 200 in the Abacus, Using Blocks, and Cards** - The students of Grade II embarked on a fascinating journey into the world of numbers up to 200. Equipped with blocks, cards, and the abacus, they unleashed their mathematical potential through interactive experiences. By practicing counting, visualizing, and manipulating numbers, students strengthened their numerical

## Special Assembly

fluency. Concrete materials instilled a solid understanding of place value and numerical operations, paving the way toward mathematical mastery.

These activities exemplify the Academy's commitment to holistic education, where academic progress and hands-on experiences intertwine. By engaging in practical explorations, students not only deepen their connection with the subject matter but also develop essential problem-solving, critical thinking, and communication skills. The shared enthusiasm and commitment to learning truly made these activities a resounding success at RIAH.

## IKIGAI

### Speech and Drama Culmination

The Speech and Drama Culminating Activity at RIAH was a resounding success, showcasing a plethora of talent and creativity from students across different grades. Grade I rendition of "The Giant Octopus" brought the underwater world to life with vibrant storytelling. In "Pardesia," Grade II students enchanted the audience with tales of folklore and fantasy. Grade III performance of "The Silent Valley" touched hearts with its poignant exploration of environmental themes. Grade IV portrayal of "The Sword in The Stone" was dynamic and captivating, depicting tales of courage and destiny. Grades V to VII collaborated seamlessly in "The Tempest in 12 Lines," delivering a condensed yet impactful rendition of Shakespeare's classic. Each performance showcased the dedication and talent of the students, leaving a lasting impression on all who attended. The culminating activity was a testament to the hard work and commitment of both students and faculty alike, celebrating the power of storytelling and the performing arts in education.

**- Ms. Sifa Rahmania,  
Primary Coordinator**

# IKIGAI

## Innovation

Innovation, the hallmark of progress, thrives on collaboration and the exchange of ideas. Bill Gates aptly captures this essence with his quote, "Innovation requires the ability to collaborate and share ideas with others." At RIAH, this philosophy is not just preached but ingrained in the very fabric of education.

In April, the halls of Ryan International Academy were abuzz with the vibrant energy of budding innovators, as students across various grades delved into hands-on projects designed to ignite their creativity and foster collaboration. Let's embark on a journey through the innovative endeavours of Ryanites, as they explored, experimented, and created wonders:

**Grade I - Making of 2D and 3D Shapes** - The journey begins with the basics of geometry, where students dive into the realm of shapes. Armed with paper, clay, or building blocks, they explore the intricacies of flat (2D) and solid (3D) shapes, laying the foundation for spatial awareness and geometric understanding.

**Grade II - Making of Catapult** - Physics takes centre stage as students embark on the construction of catapults. Through the assembly of simple yet ingenious contraptions using popsicle sticks, rubber bands, and spoons, they unravel the mysteries of force, motion, and energy transfer, all while fostering teamwork and collaboration.

**Grade III - Electric Mop** - Electrifying creativity meets practicality as students venture into the world of circuits and electricity. Building electric mops, they wire small motors to power sources, transforming theoretical knowledge into tangible solutions. This project not only sparks interest in STEM but also instils a sense of environmental responsibility.

**Grade IV - Motorised Zoetrope** - Art meets Science in the realm of animation as students breathe life into still images with motorized

# IKIGAI

zoetropes. Through a fusion of Artistry, Physics, and Engineering, they delve into the intricacies of motion and illusion, paving the way for boundless creativity and experimentation.

**Grade V - Magnetic Waste Separator** - Environmental stewardship takes centre stage as students tackle recycling and waste management issues. Constructing magnetic waste separators, they harness the power of magnets to segregate materials, fostering awareness and innovation in sustainable practices.

**Grade VI - Engine Working Model** - The roar of engines echoes through the corridors of RIAH as students delve into mechanical engineering. Building working models of engines, they unravel the complexities of combustion and mechanical systems, laying the groundwork for future innovations in transportation and machinery.

**Grade VII - Scotch Yoke Mechanism** - Mechanical marvels come to life as students explore the intricacies of Scotch Yoke mechanisms. Through hands-on experimentation, they grasp the fundamentals of mechanical linkages and motion, paving the way for innovations in engineering and automation.

**Grade VIII - Eddy Current Mechanism** - Electromagnetic wonders take centre stage as students delve into the realm of Eddy currents. Constructing devices to demonstrate Eddy current effects, they unlock the potential of induction and electromagnetism, paving the way for innovations in energy generation and transportation.

At Ryan International Academy, innovation isn't just a concept; it is a way of life. Through hands-on projects and collaborative endeavours, students not only acquire knowledge but also cultivate the skills and mindset necessary to become the innovators of tomorrow. As they navigate through these transformative experiences, they emerge not just as learners but as architects of change, ready to shape a brighter, more innovative future.

# Health, Safety and Child Protection

## HSCP Induction Training for Teachers

In the ever-evolving landscape of education, ensuring the safety and well-being of students is a top priority for the Ryan Group of Institutions. At RIAH, we conducted our first Health Safety and Child Protection (HSCP) Induction and No Corporal Punishment Training for new teachers in the academic year 2024-25. Among the various strategies employed to create a secure environment, comprehensive HSCP Induction training focused on HSCP stands out as an indispensable tool. These initiatives not only empower educators but also play a crucial role in fostering a culture of safety and vigilance within school communities.

The training was conducted by the school's HSCP Coordinator, Ms. Megha Madhavan on 6th April 2024. Various aspects of HSCP like Health Safety (HS) Policy, Child Protection (CP) Policy, HSCP Reporting Procedures, Health Safety Standards, HSCP Committee, Anti-bullying Committee (ABC), Internal Complaint Committee (ICC), Incident Accident Escalation Matrix, Zero Corporal Punishment, etc. were covered through presentations and healthy discussions.

The code of business conduct and ethics for employees provides a framework of principles that guide them in discharging their obligations towards students, parents, colleagues, and the community at large. After the completion of the training, all the trainees had to undertake an examination and clear the same to receive certification. The Principal, Ms. Sonika issued certificates to all new teachers to give them a sense of responsibility for responding appropriately and timely to safeguard the welfare of the students and to create a positive learning environment for all Ryanites.

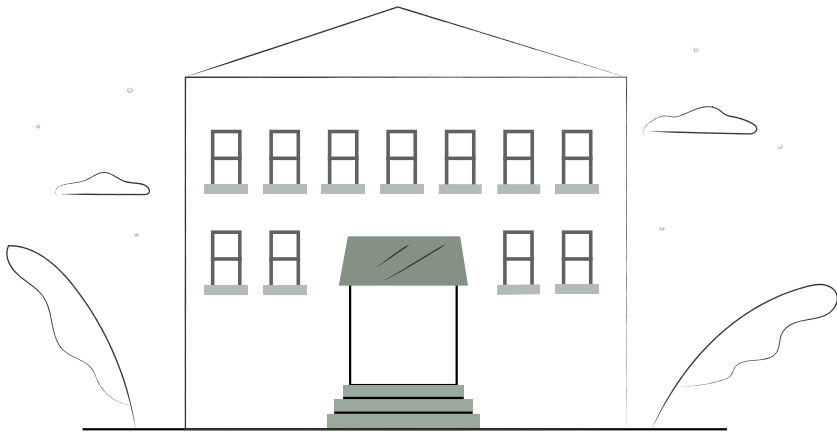

Teacher training in health, safety and child protection (HSCP) is not just a regulatory requirement but a moral mandate in today's educational landscape. By investing in the professional development of educators, RIAH demonstrates its unwavering commitment to creating a safe, nurturing, and inclusive learning environment where every Ryanite can thrive. "When safety is woven into the fabric of school culture, students can spread their wings and soar to new heights, knowing that they are grounded in a supportive and secure environment."

Our Staff echoes the sentiment - Safe Ryanites, Happy Ryanites!!

**- Ms. Megha Madhavan,  
HSCP Coordinator and Librarian**

## PARENT'S CORNER

### Embracing New Beginnings: A Parent's Perspective on the Academic Year

As parents, the start of a new academic year brings a mix of emotions—excitement, anticipation, and a touch of nostalgia. The theme "Fresh Beginnings: Unveiling the Journey of a New Academic Year" captures the essence of this transformative time for us and our children.

This year is filled with possibilities as our children step into classrooms buzzing with new experiences and opportunities. It is a time for growth, resilience, and forging new friendships that enrich their lives.

We play a crucial role in supporting our children's learning journey. By partnering with educators, instilling values like resilience and curiosity, and creating a nurturing environment, we empower our children to thrive academically and personally.

As we embrace these fresh beginnings, let us cherish each moment, celebrate milestones, and support our children as they uncover the wonders of learning and growth. Here's to a year of excitement, discovery, and endless possibilities!

**- Mr. Satyam Nirmalkar,  
Parent of Ms. Anaika Nirmalkar,  
Grade III 'C'**
